Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: This addition has seemed to be done without any notification outside so residents can see this addition. We only found out by looking at it after letter to us on rear extension. We still object to a two story extension passed the original building line at rear side extension (light and sun will be reduced). Adding the garage will still obstruct the view for passing traffic, if this goes ahead then there should be less need for parking spaces at front of premises
