Description

Please describe details of the proposed development or works including any change of use

Stockbridge Surgery is applying to build a single storey extension to the existing building. The extension will house the Dispensary, currently located within the existing building. The workload of the dispensary has increased significantly over recent years. Allowing the Dispensary to have its own defined and separate space will allow for greater efficiency and improved service for patients. The space within our existing building will be changed into an additional consultants room, an interview room and private space for staff to carry out telephone consultations.

The proposal would require planning permission. The submitted elevations and covering letter appear to have addressed the issues in respect of the design and hedging, and provided that materials are identified if a planning application is submitted, it is considered that the scheme would receive officer support.

A Phase 1 Bat Survey and Flood Risk Assessment would also be required on submission of a planning application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
