Is any land covered by, or within the curtilage of, the building:

Proposed works Please describe the proposed development including details of any dwellinghouses and other works proposed Proposed conversion of 2nd Floor Offices to Residential Flat Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses Please refer to submitted plans which show all habitable rooms are served by openable windows What will be the net increase in dwellinghouses? 1 This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses in the existing building prior to the development. Impacts and risks Please provide details of any transport and highways impacts and how these will be mitigated, particularly to ensure safe site access The new flat is adjacent the high street close to all required amenities and public transport links. Parking is available via permit parking along Rous Road, if required. Please provide details of any contamination risks and how these will be mitigated The applicant is not aware of any contamination risk. An abestos survey will be completed before any on site work commences. Please provide details of any flooding risks and how these will be mitigated. NA A flood risk assessment should accompany the application where the site: • is in Flood Zones 2 or 3; or • is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency). Check if your site location is in Flood Zone 2 or 3 online Check with your Local Planning Authority to see if your site is in an area with critical drainage problems. Please provide details of the impacts of noise from any commercial premises on the intended occupiers of the new dwellinghouses and how these will be mitigated NA If the building is located in a conservation area, and the development involves a change of use of the whole or part of the ground floor. Please provide details of the impacts that the change of use will have on the character or sustainability of the conservation area and how these will be mitigated NA If the building is located in an area currently in use for general or heavy industry, waste management, storage and distribution, or a mix of such Please provide details of the impacts on intended occupiers of the development of the introduction of residential use in the area and how these will be mitigated NA
