

GENERAL NOTES
 This drawing must not be scaled.
 All dimensions should be checked on site.
 Any discrepancies that become apparent, should be reported to Cohesiva Design.
 Areas indicated are approximate and they relate to the likely areas of the building at the current stage of design. Any decisions to be made on the basis of these predictions, should include due allowance for the increases and decreases inherent in the design, development and building process.
 Drawing to be read in conjunction with all other consultant's drawings.
