Description of Proposed Works

Please describe the proposed works

This rear extension will be a maximum of 2.8 metres in height from ground level to the eaves. The length of the extension is 3.5 metres from the furthest external original wall. The width of the extension will be circa 6.5 metres (including external wall thickness). The roof construction will be a torch on felt flat roof, laid to falls into a gully gutter, joining into an existing drainage system. The external finish is proposed to be a light coloured render, with a new window and bi-fold doors, with an estimated length of 3.2-3.7 metres. There will also be two medium sized pyramid skylights and one small square pyramid skylight, to improve the natural light to the property. The purpose of the extension is to create a bigger kitchen and living space for the family. The plans show there will be enough space for a generous patio area and still a generous soft landscape area towards the back of the property

Biodiversity net gain

Householder developments are currently exempt from biodiversity net gain requirements.

However, this exemption still needs to be confirmed by the applicant or agent when making a householder planning permission application.

I/we confirm that the proposed development, if granted permission, would be exempt from the general biodiversity gain condition.

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended) sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'general biodiversity gain condition'.

However, the 'general biodiversity gain condition' does not apply in relation to planning permission for a development which is the subject of a householder application, within the meaning of Article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).
