

- 1.) 1 x stable type doorway (outward opening) whiteboard style, removable flood defence barrier approx. 1120mm x 750mm high (if you'd prefer this to be an internal fit, so that the barrier does not block off this door way when in situ, please send an internal photo and confirm the internal floors are solid concrete) _____
- 2.) 1 x patio doorway bi-fold (outward opening) external fit, flood fence style, removable flood defence barrier approx. 2430mm wide x 900mm high, 1 central removable post, two sections of barriers with a fixed side post left and right of the opening onto the brickwork, still allowing the doors to open in full when the barrier is not in place _____
- 3.) 1 x excavate and remove the old Aco-Drain below the above door and concrete infill for the full length to allow for our barrier to slide down onto when in place and the central removable post approx. 2.4m length x 100mm deep x 150mm width _____
- 4.) 1 x grey single front door with Woodruff Cottage Sign, white board style, removable flood defence barrier approx. 1070mm wide x 750mm high, externally fit to frame/brickwork _____
- 5.) 1 x travel and install fee to NG34 OEE _____
