Re: Planning Application for The Old Post Office, Stutton, Ipswich, Suffolk, IP9 2TJ

Dear Sir

With reference to the planning application to add cladding to The Old Post Office. As one of the closest neighbours, living directly opposite the property, we have no objections and fully support the application.

As long term residents of the village we feel that this is very much in keeping with the house itself, surrounding properties and the village as a whole and is in no way detrimental to the appearance of the existing property. It is clear that careful consideration has been given to all of these factors by the owners.

Yours Faithfully

Steve Barnes and Teresa Pearson
