Description of Proposed Works, Impacts and Risks

Proposed works

Please describe the proposed development including details of any dwellinghouses and other works proposed

change of use of
1st and 2nd floor offices (Class E(g)(i)) to 4 x 1 bedroom flats (Class C3) and replacement of all rear windows

Please provide details on the provision of adequate natural light in all habitable rooms of the dwellinghouses

1st floor flat 1; bedroom floor area=14m², glazed area=2.36m², 10% floor area=1.4m². Living/Dining room floor area=32.5m², glazed area=3.9m², 10% floor area=3.25m².
1st floor flat 2; bedroom floor area=12.3m², glazed area=1.3m², 10% floor area=1.2m². Living/Dining room floor area=37.7m², glazed area=3.9m², 10% floor area=3.77m².
2nd floor flat 3; bedroom floor area=14m², glazed area=2.36m², 10% floor area=1.4m². Living/Dining room floor area=32.5m², glazed area=3.9m², 10% floor area=3.25m².
2nd floor flat 4; bedroom floor area=12.3m², glazed area=1.3m², 10% floor area=1.2m². Living/Dining room floor area=37.7m², glazed area=3.9m², 10% floor area=3.77m².

What will be the net increase in dwellinghouses?

4

This figure should be the number of dwellinghouses proposed by the development that is additional to the number of dwellinghouses in the existing building prior to the development.

Impacts and risks

Please provide details of any transport and highways impacts and how these will be mitigated, particularly to ensure safe site access

The public transport provision is excellent having a PTAL rating of 5.
The DLR and train stations are 5 minutes walk away. Greenwich High Road is a major bus route and the Thames Clipper service is 10 minutes walk away. There is ample visitors car parking on the opposite side of the road. A covered secure cycle store for 6 bikes will be provided in the rear yard. There is ample cycle rack provision in the neighbouring streets. Thus, the extra provision of 2 flats in nos. 275 and 277 does not require offstreet parking.

Please provide details of any contamination risks and how these will be mitigated

There are no contamination risks on the site as the previous use was for a bank on the ground floor.

Please provide details of any flooding risks and how these will be mitigated.

The site is in Flood Zone 1 so there is a low probability of flooding.

A flood risk assessment should accompany the application where the site:

- is in Flood Zones 2 or 3; or
- is in an area with critical drainage problems (such areas will have been notified to the Local Planning Authority by the Environment Agency).

[Check if your site location is in Flood Zone 2 or 3 online](#)

Check with your Local Planning Authority to see if your site is in an area with critical drainage problems.

Please provide details of the impacts of noise from any commercial premises on the intended occupiers of the new dwellinghouses and how these will be mitigated

There are no impacts of noise from commercial premises on the intended occupiers of the development. The neighbouring premises on Greenwich High Road front, are not noise producing ie. Post Office, pharmacy, estate agent, betting shop, barbers shop and café only open during the day.

At the rear there is more residential use and a deep railway cutting. On the other side of the road is the cinema (triple glazed), a car park, hotel and a vacant restaurant.

I don't think a Noise Impact Assessment is required for this site. Note that no.275 provided a NIA and the result stated there was negligible noise from neighbouring commercial properties and external noise was from the traffic along Greenwich High Road and was not a nuisance. Note also that for 275 and 277 all the existing windows on the street side are double glazed and the proposed replacement windows on the rear of the building will also be double glazed.

If the building is located in a conservation area, and the development involves a change of use of the whole or part of the ground floor. Please provide details of the impacts that the change of use will have on the character or sustainability of the conservation area and how these will be mitigated

There will be no change of use for the ground floor.

If the building is located in an area currently in use for general or heavy industry, waste management, storage and distribution, or a mix of such uses.

Please provide details of the impacts on intended occupiers of the development of the introduction of residential use in the area and how these will be mitigated

The building is not located in an area currently in use for the uses listed above.

If the proposal involves the loss of services provided by a registered nursery, or a health centre. Please provide details of the impacts on the local provision of the type of services lost and how these will be mitigated

The proposal does not involve the loss of the services listed above.
