

A WINDOW THAT TILTS AND TURNS

Providing an inward opening and tilting window option.

Tilt and turn windows form the vast majority of PVCu window sales in Europe and KÖMMERLING has proven to be a market leader in this type of window development with cutting edge technologies. These windows can be cleaned from the inside, yet also offer a clever tilting function for perfect ventilation. They are also highly secure and offer the same impressive levels of energy efficiency and sound reduction as the C70 and O70 casement windows, along with an impressive range of colours and woodgrains.

For difficult to reach windows in kitchens and bathrooms, the tilt and turn window is a practical alternative to the outward opening casement window.
