## Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

- ☒ Yes
- ☐ No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

Proposed Rear Dormer Loft Conversion with 3x Front Velux Rooflights to the Front Pitch of the Roof and 1x Juliette Balcony

Does the proposal consist of, or include, a change of use of the land or building(s)?

- ☐ Yes
- ☒ No

Has the proposal been started?

- ☐ Yes
- ☒ No

## Grounds for Application

### Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The existing property or use of land is dwelling house and the proposed use is also the same.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

### Information about the proposed use(s)

Select the use class that relates to the proposed use.

C3 - Dwellinghouses

Is the proposed operation or use

- ☒ Permanent  
☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

The above property has submitted a Certificate for lawfulness for the extension of the loft space into a Rear dormer within 40 cubic meters. The calculation for the dormer is within the drawing files and shows that the space created is less than the permitted allowances. It is due to this that this planning statement is in support of a 40 Cubic meter dormer at the property above given that it is a terraced house and that permitted development rights are applicable to the development. The Rear dormer will meet all the permitted development conditions for loft as it will be under 40 cubic meters created space and 20cm step back from eaves.
