

## ENVIRONMENTAL POLICY STATEMENT

Delta Engineering Group Ltd is primarily engaged in the supply of Mechanical and Electrical Engineering Services.

Delta Engineering Group Ltd recognises that its operations have an environmental impact on the local communities and the natural environment and as such is committed to:

Meet all legal and regulatory requirements including monitoring in order to ensure compliance with the Environment Protection Act, COSHH regulations and the Health and Safety at Work Act.

Balance the need to achieve business aims with the need to satisfy increasing social environmental requirements and to improve the quality of the environment.

Reduce the impact to the local communities which may be affected by its operations.

Control all hazardous waste, handled, stored or disposed of.

Reduce the pollution to the environment.

Actively encourage waste minimisation and reduction.

Increase the use of recycling materials where appropriate.

Promote Environmental awareness through staff training.

These guiding principles apply to all employees of Delta Engineering Group Ltd and its affiliates. We will maintain communications throughout all levels of the Delta Engineering Group to ensure compliance with this Policy and awareness of its positive influence on all of our activities.
