GLAZING NOTES

Yew Tree Cottage, Avington Park Lane, Easton, Winchester, SO21 1EJ

Included within this application is the replacement of all existing single glazed timber framed windows to be replaced with new double glazed slimline replacements.

This was discussed and agreed in principle during the last application, and as such is being included for.

In order to minimise the impact on the heritage asset, a slimline system has been proposed to keep the thickness of the double glazing as thin as possible.

Alongside this, a special request is being made for conditions to be applied to an approval that the windows be allowed to not have trickle vents or kite marks to every section of glazing.

Although this is a requirement for building regulations, this would have a significant effect on the aesthetic of the glazing looking original, which should be a priority in this instance.
