| A potting shed is an essential at any nursery. The nursery's current 50 plus year old potting shed was converted from a Farm Barn. | | | | |
|---|------------|--|--|--|
| It has an old corrugated iron roof, Asbestos side panels, rudimentary windows and a very rudimentary door. | | | | |
| The whole building is no longer fit for purpose both in terms of use in a modern nursery and more particularly for our staff to work in. | | | | |
| We cannot bring compost into the building safely with our fork lift so there is a lot of manual handling involved. | | | | |
| During the winter no amount of heating keeps the building warm as it has no insulation. | | | | |
| The roof leaks and it is very draughty. The new building has a high opening door so we can use the forklift. | | | | |
| It is also well insulated, warm and dry. | | | | |
