Dear Sir/Madam,

12 New Street Waddesdon Buckinghamshire HP18 0LR

**Tree 1:**

**Tree one we are wanting to reduce the crown of the tree by approximately 50%, so to c. 7.5m in height. The spread of the crown is approximately 7m, and we would reduce this in line with the height, to approximately 3.5m.**

**Tree 2:**

**This is an Alder-type tree located at the rear of our garden close to the boundary wall that is shared with a parking area behind our garden. This tree is of significant size, affects other trees nearby (particularly an apple tree); and we are also concerned about it's size and proximity to the boundary wall and adjoining car park in terms of root damage. We would like to remove this tree fully down to a stump.**
