TURNER JOMAS & ASSOCIATES

Environmental & Civil Engineers & Transport Planners

1 Introduction

1.1 Background

- 1.1.1 Turner Jomas & Associates Ltd has been instructed by DDHW Architects to prepare a Transport Statement (TS) in respect of a proposed development at 20 Watford Road, Radlett. The development comprises erection of a three-storey building to provide 6 no. 3-bedroom residential flats, and includes car parking, cycle parking and landscaping.
- 1.1.2 This TS considers all relevant transport arrangements for the proposal and the implications of the proposed development for the local highway and public transport networks. Additionally, the TS assesses the development against all relevant local, regional and national transport policies.
- 1.1.3 In preparing this TS, guidance on Transport Statement/Assessments, published by the Department for Transport has been consulted. It should be noted that thresholds when a TA or TS is required were set in Guidance on Transport Assessments, DfT, 2007. This document has now been withdrawn by the government, as it is considered more appropriate to determine thresholds which reflect the transport context and circumstances in local areas. Nevertheless, in practice, the previous nationally defined thresholds continue to be applied in the absence of more locally defined thresholds.
- 1.1.4 The indicative thresholds for when a TA or TS are required are set out in the 2007 DfT guidance on Transport Assessments. The threshold for when a TA is required for residential development (use class C3) is >80 residential units. The threshold for a TS is >30 and <80 residential units (C3). According to the DfT guidance above, an assessment is not required for developments (C3) of less than 30 units. However, these are not absolute thresholds, and the requirements will depend on the transport considerations specific to each.
- 1.1.5 In regard to the subject development, a TS is deemed appropriate due to its modest scale and nature. A development of the scale and nature proposed is not expected to generate the level of demand on the network that requires a detailed transport impact assessment and include local or strategic transport modelling to assess its impacts on the network. Nevertheless, it is appreciated that there might be concerns regarding potential impacts on the local transport network, parking in the surrounding streets, access to the development and questions about how any potential adverse impacts could be mitigated.
- 1.1.6 This document ensures that all relevant transport matters are given due consideration and are fairly represented in deliberations on this planning application.

1.2 Structure of the Report

1.2.1 The report provides details of the traffic and transportation issues associated with the proposed development and its structure as below:

- Chapter 1 – Introduction
- Chapter 2 – Policy Considerations
- Chapter 3 – Existing Development and Context
- Chapter 4 - Accessibility
- Chapter 5 - Development Proposal
- Chapter 6 - Trip Generation and Impacts
- Chapter 7 - Summary and Conclusions

2 Policy Considerations

2.1 Background

2.1.1 This section sets out the relevant transport policies for the area, including national policies contained in the National Planning Policy Framework (NPPF) 2021, strategic policies set by Hertsmere Borough Council draft Local Plan.

2.2 National Planning Policy Framework (NPPF) 2021

2.2.1 The NPPF 2021 sets out national planning policy, provides a framework within which local planning policies should be produced, and is a material consideration in planning decisions.

2.2.2 Paragraph 107 writes:

2.2.3 If setting local parking standards for residential and non-residential development, policies should take into account:

- a) the accessibility of the development.
- b) b) the type, mix and use of development.
- c) c) the availability of and opportunities for public transport; d) local car ownership levels; and
- d) e) the need to ensure an adequate provision of spaces for charging plug-in and other ultra-low emission vehicles.

2.2.4 With regards to transport NPPF 2021 Paragraph 111 provides that:

2.2.5 “Development should only be prevented or refused on highway grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe.”

2.2.6 Paragraph 112 further provides:

2.2.7 applications for developments should:

- Give priority first to pedestrian and cycle movements, both within the scheme and with neighbouring areas; and second – so far as possible – to facilitating access to high quality public transport, with layouts that maximise the catchment area for bus or other public transport services, and appropriate facilities that encourage public transport use.
- Address the needs of people with disabilities and reduced mobility in relation to all modes of transport.
- Create places that are safe, secure, and attractive – which minimise the scope for conflicts between pedestrians, cyclists, and vehicles, avoid unnecessary street clutter, and respond to local character and design standards.

- Allow for the efficient delivery of goods, and access by service and emergency vehicles; and
- Be designed to enable charging of plug-in and ultra-low emission vehicles in safe, accessible, and convenient locations.

2.2.8 Paragraph 113 states that: “All developments that will generate significant amounts of movement should be required to provide a travel plan and should be supported by a transport statement or transport assessment.”

2.3 Hertsmere Local Plan 2012 – 2027 Core Strategy

2.3.1 This policy document was adopted in 2013. Its main objective is to reflect the balance between the need for new housing and employment opportunities, the regeneration and growth agenda, and protecting the transport network for the safe movement of people. In regard to transport, the states objectives are:

- To improve environmental and streetscape quality in town centres and protect and enhances the built heritage of Hertsmere.
- To raise levels of access by seeking development in locations not dependent on access by car and by requiring the provision of physically accessible transport interchanges and other buildings.

2.3.2 At the neighbourhood level, the transport objective for Radlett is to “improve physical accessibility at Radlett Railway Station

2.3.3 The Local Plan paragraph 2.53 – 2.55 writes:

2.3.4 *Due to the limited east-west public transport links and the semi-rural nature of much of the Borough, the car will remain the dominant mode of transport in many areas. However, development which creates traffic congestions and is over-reliant on access by car will not be allowed.*

2.3.5 *The location and quantity of car parking will have an important bearing on the efficient use of land. Reduced levels of off-street car parking will only be considered in a limited number of local areas which have been identified as having increased levels of public transport and service accessibility: central Borehamwood, central Potters Bar, Bushey town centre and Radlett town centre. Elsewhere, car parking will need to reflect a range of local factors, including car ownership levels, on-street parking conditions and controls and whether roads have been built to an adoptable standard.*

- 2.3.6 *The concept of Transport Development Areas (TDAs), where higher density development is concentrated around transport hubs, will be promoted close to transport interchanges in Borehamwood and Potters Bar. These TDAs and other main centres may act as a focus for new development. The TDAs are themselves based on the Council's accessibility zones and provide a basis for directing more intensive and trip generating development towards the most accessible parts of the Borough's main settlements.*
- 2.3.7 Policy SP1 Creating sustainable development:
- 2.3.8 *The Council will work with Hertfordshire County Council, Hertfordshire Constabulary, NHS Hertfordshire, Registered Housing Providers and other key local stakeholders to enable development in the Borough to make a sustainable contribution to delivering the Core Strategy Spatial Vision and Strategy. Accordingly new development will be required to prioritise the efficient use of brownfield land in delivering the land use requirements of the private sector, local service providers and the different needs of the hierarchy of settlements across the Borough. There will be a focus on prioritising development opportunities in Borehamwood but all existing built up areas within urban settlements will be expected to accommodate opportunities which arise for meeting local housing, jobs growth and other development and service needs.*
- 2.3.9 *All developments across the Borough should:*
- *(i) ensure a safe, accessible and healthy living environment for residents and other users of a development*
 - *(iii) mitigate the environmental impact of transport by promoting alternatives to the car for accessing new development and existing development and other destinations across the Borough, and opportunities for linked trips*
 - *(vi) minimise and mitigate the impact on local infrastructure and services.*
 - *(ix) ensure a safe, efficient and affordable transport system that allows access for all to everyday facilities.*
- 2.3.10 Policy Cs24 Development and accessibility to services and employment
- 2.3.11 The Council will work towards Hertfordshire County Council's vision of providing a safe, efficient and affordable transport system that allows access for all to everyday facilities.
- 2.3.12 To obtain the best use of the existing highway network, major trip generating development should be focused principally on Transport Development Areas and town centres, as indicated on the Key Diagram. Major developments will only be permitted where:

- i. it does not conflict with the Transport Objectives of the Hertfordshire Local Transport Plan (as amended);*
- ii. it is accompanied by a suitable Travel Plan (where required by the Hertfordshire Local Transport Plan (as amended)), prepared in accordance with guidance set out in the Parking Standards Supplementary Planning Document and DfT guidance on preparing travel plans.*
- iii. it is in accordance with Hertfordshire County Council guidance and relevant Local Plan (as amended) policies relating to the operation of the Highways network and the achievement of vehicular, pedestrian and equestrian safety.*
- iv. it contributes, where required, to the provision or funding of new infrastructure or improved public transport services and non-motorised routes; and*
- v. the cumulative impact on the highways network can be adequately mitigated.*

2.3.13 Policy CS25 Accessibility and Parking

2.3.14 In order to facilitate fair and convenient access to local services, the quantity of off-street parking for all modes of transport, to be provided at new developments, will be based on an assessment of:

- i. a site's location*
- ii. local car ownership*
- iii. the proposed land use (having regard to Table 13 for residential development)*
- iv. housing tenure*
- v. the potential for shared parking, over various times of the day and week, with other uses*
- vi. local on-street parking conditions and controls, including those likely to be available within the new development.*
- vii. highway and pedestrian safety considerations including whether roads have been designed to an adoptable standard.*
- viii. incentives to reduce dependency on the car and the provisions of any Travel Plan submitted.*
- ix. the Accessibility Zones for the Borough; together with the extent of compliance with requirements set out in the Parking Supplementary Planning Document; and*
- x. the extent to which permeable and semi-permeable surfaces are incorporated into the area of off-street parking to be provided.*

Table 13: Indicative parameters for Car Parking Standards SPD (residential standards)

Number of bedrooms (flats, bungalows and houses)	Required number of car parking spaces
1	1.5*
2	2
3	2
4	3
5*	4

*Decimal places will be rounded up to the nearest number.

2.4 Draft Hertsmere Local Plan

2.4.1 The draft Local Plan will replace the current Local Plan when it is adopted, and will set the visions, objectives and policies for the borough over the plan period. The transport policies in the draft Local Plan are as follows:

2.4.2 Policy ST1 – Strategic approach to transport

2.4.3 To ensure that growth can be safely and sustainably accommodated across the local transport network, proposals for development must:

- i. make the most effective use of land, reflecting a site’s existing and/or future connectivity and accessibility by public transport, walking and cycling.
- ii. ensure that impacts on the local transport network and associated infrastructure are mitigated.
- iii. reduce the need for travel and facilitate shorter more regular trips by walking and cycling including through the provision of cycle lanes and route.
- iv. provide appropriate means of access for all users of the highway network; and
- v. be consistent with and contribute to the implementation of the Hertfordshire Local Transport Plan (2018 or amended) and Local Growth and Transport Plans, in securing a modal shift and reflecting the Transport User Hierarchy set out in the Local Transport Plan.

2.4.4 Policy ST2 – Hertsmere’s transport network and supporting infrastructure.

- 2.4.5 This policy provides that developers are expected to work with the council, highway authorities and other key partners to support the implementation of transport schemes which improves connectivity and increases sustainable travel patterns between and beyond the key centres of Borehamwood, Radlett, Bushey and Potters Bar.
- 2.4.6 Policy ST3 – Reducing emissions and promoting health and wellbeing.
- 2.4.7 New proposals will be required to demonstrate:
- i. a clear choice of sustainable transport modes will serve the site.
 - ii. suitable measures have been taken to reduce and/ or mitigate the environmental impacts of safe travel including carbon emissions and noise and air pollution.
 - iii. consideration has been given to future proofing mechanisms (as far as practical) to accommodate potential new trends or technologies.
 - iv. access to and from the site has been improved for cyclists and pedestrians, including the provision of links to existing footpaths and cycle lanes or new safe provision where none exists.
 - vi. new facilities can be safely and affordably accessed from any locations with recorded levels of deprivation.
 - vii. steps have been taken to create walkable developments, with a range of services and facilities within a 15-minute walk; and vii. the development will help to promote other health and wellbeing initiatives, reduce social isolation and increase the possibilities for social interaction.
- 2.4.8 Where necessary, Section 106 planning obligations and/ or planning conditions will be used to secure appropriate financial contributions or site-specific mitigation to offset transport impacts and deliver sustainable travel interventions.
- 2.4.9 Policy ST4 – The highway network and vehicular parking

2.4.10 This policy sets out various considerations for developments, covering the requirement to locate major trip generating developments in locations that are well connected to public transport, where it is possible to reduce the level of car parking to minimise impacts on the road network and promote travel by sustainable modes. With respect to vehicular parking the policy provides that off-street parking should be provided in accordance with the Parking Standards SPD or successor document and Table 27, further providing that the level of parking should take account of factors such as housing mix and tenures; the potential for shared parking arrangements and/or car clubs; incentives to reduce dependency on the car; local on-street parking conditions and controls; the level of on-site cycle parking; and adequate disabled car parking provision.

2.4.11 Policy ST5 – Electric vehicles and mobility initiatives

2.4.12 The use of new vehicular technologies and shared mobility initiatives will be supported through a requirement for:

- i. all new homes with their own curtilage parking to include individual provision for electric vehicle charging points.
- ii. communal residential parking layouts to include electric vehicle charging points and passive provision.
- iii. requiring all major retail and other commercial developments, as defined by the NPPF, to include provision for least 10% of dedicated car parking spaces to have electric vehicle charging points and a reasonable proportion of other spaces with passive provision; and
- iv. all major trip generating proposals to demonstrate that:
 - a. where car clubs' schemes are already in operation locally at least 5% of car parking spaces are dedicated for car club use only, specifically in conjunction with a provider;
 - b. where a car club is not already in operation, establish or make a significant contribution towards the establishment of a new car club, with the scope for sufficient dedicated car parking to be provided in the future; and
 - c. opportunities to extend or introduce local bicycle /scooter hire schemes into or near the site have been explored.

2.5 The Radlett Plan 2022 – 2036

2.5.1 This neighbourhood plans sets out the vision and objectives for Radlett. With respect to transport, the plan sets out the vision and objectives below:

- Easy access to the open countryside and a well-maintained network of footpaths, bridleways, cycleways and streets within Radlett itself
- Good accessibility of the high street for public and private modes of transport and sufficient parking for all modes including cars, bicycles and motorbikes.
- To encourage cycling to and from key local destinations by improving the facilities for safe cycling and adequate parking (dedicated and safe paths, lanes and tracks) within and outside Radlett (Objective 9)
- To support proposals improving access, capacity, appearance and functioning of parking facilities for cars, bicycles and motorbikes; (Objective 11).
- To seek improvements to streets and transport infrastructure facilitating a smooth traffic flow through the village and district centre (Objective 12).

2.5.2 The Radlett Local Plan identifies opportunities to improve the local pedestrian and cycle network. These opportunities are set out in Figure 19a of the Local Plan and includes improvements for cycling along Watford Road to provide improved connections to the existing National Cycleway which runs to the east of Watford and an extended national cycleway network that runs through Radlett.

2.6 Hertsmere Local Plan – Parking Standards SPD 2014

2.6.1 This document sets out the Council’s standards on the levels of car parking, cycle parking, motorcycle parking, electric parking and disabled parking that should be provided at new developments. Applications for new developments will be assessed against the standards contained in this SPD.

2.6.2 The recommended standards for residential development are set out in Figure 1 of the Parking Standards SPD and are as below:

Figure 1: Residential Parking Standards

C3		
General Needs Housing* (including flats and bungalows)		
Studio / bedsit	1.5 per unit	1 secure / long term space per unit <i>plus</i> 1 short term space per 5 units where communal parking is to be provided
1 bedroom	1.5 per unit	
2 bedroom	2 per unit	
3 bedroom	2 per unit	
4 bedroom	3 per unit	
5 bedroom	4 per unit	
6 bedroom	5 per unit (and one additional space per bedroom thereafter)	
Additional parking requirements		
Houses with additional habitable rooms on upper floors/roofspace	1 per additional habitable room ***	
Flats or Bungalows with a total of 6 or more habitable rooms and bedrooms	1 per additional habitable room ***	
Houses with 5 or more habitable rooms on the ground or lower ground floor	1 per additional habitable room ***	
Elderly Persons Housing**		
Category I – Retirement dwellings, no warden control, 1 bedroom	1.5 per unit	1 short term space per 3 units plus 1 long term space per 5 units
Category I – Retirement dwellings, no warden control, 2 bedroom	2 per unit	
Category II – Warden Control, sheltered dwellings, 1 or 2 bedroom	1 per unit	
Category I or Category II – More than 2 bedrooms	To be determined on a case by case basis	

2.6.3 The Parking Standards SPD provide recommendations for disabled car parking, which are set out at Table 2 of the Parking Standards SPD. The recommendations are as follows:

Figure 2: Disabled car parking provision

Scheme size	Exclusive disabled spaces	Spaces meeting disabled standards
5-10 units	1 space	0
11-20 units	1 space	1 space
21-30 units	6%	+1 space
31-40 units	6%	+2 Spaces

2.6.4 On parking for motorcycles and other powered two-wheelers, the Parking Standards SPD at paragraph 2.8 states “Where communal parking is proposed, major residential applications will be required to make provision for motorcycles and other powered two-wheelers. As a guide, 5% (1 in 20) of Hertsmere Borough Council Parking Standards SPD (July 2014) of the required car parking provision (excluding disabled car parking spaces) should be allocated for motorcycle use”.

2.6.5 Paragraph 2.9 – 2.11 recommends the provision of electric vehicle charging points (EVCPS) in new development. The document does not specific the number of EVCPS for new development but states that EVCPS are encouraged in new development below 50 homes.

TURNER JOMAS & ASSOCIATES

Environmental & Civil Engineers & Transport Planners

2.6.6 The recommendations for cycle parking are set out at paragraph 4.12 – 4.14 of the Parking Standards SPD.

3 Site Description, Location and Context

3.1 Existing Site Description

3.1.1 The application site is located on Watford Road, Radlett. The location of the site is shown in Figure 1. There is an existing structure on the site. The structure was previously in use as a residential dwelling, but it is understood that the existing building will be demolished, to accommodate the proposed development.

Figure 1: Site Location

Figure 2: Site Location (red line boundary)

3.2 Access

3.2.1 There are two existing vehicular access from the development to Watford Road as indicated on the submitted site plan, which is a similar access arrangement for other properties along Watford Road.

3.3 Highway Network

3.3.1 Watford Road (B462) is public highway, which is maintained by Hertfordshire County Council and classified as a 'B' road. Its classification as such indicates that Watford Road performs an important movement function, in terms of providing onward connections from the local road network to the strategic road network. The road is characterised by a single carriageway with two-way traffic in operation. There is a footway present on the south side of Watford Road in the vicinity of the site. Towards the town centre and Radlett railway station, this changes to footways on either side of the road.

Figure 3: Watford Road (towards town centre and station)

3.3.2 The nearest part of the Strategic Road Network is the A41, located to the southwest of the site at approximately 3.3km. The A41 can be accessed via Watford Road and Radlett Road. Watford Road via A41 provides onward connections to the M1 Motorway, which lies to the southwest of the site at approximately 3.5km.

4 Accessibility

4.1 Bus

- 4.1.1 Access by bus is gained via three bus routes which operate in Radlett. These routes comprise Route 398, 601 and 602. Routes 398 and 602 run along Watford Road. Route 601 runs along Watling Street to the east of the site and can be accessed from stops serving Radlett rail station.
- 4.1.2 Route 602 runs between Hatfield and Watford via Radlett. In the direction of Watford, services operate Monday to Friday from 0607 to 2036. Bus services are generally three buses per hour during the peak and two buses per hour at other times. In the direction Watford to Hatfield, services operate Monday to Friday from 0612 – 2129 with the similar frequencies. Additional services operate during school days, increasing the peak frequency of services.
- 4.1.3 Route 602 operates on Saturdays and Sundays between 0730 – 2129 and 0912 – 1815, respectively. A full timetable for the route is appended to this report.

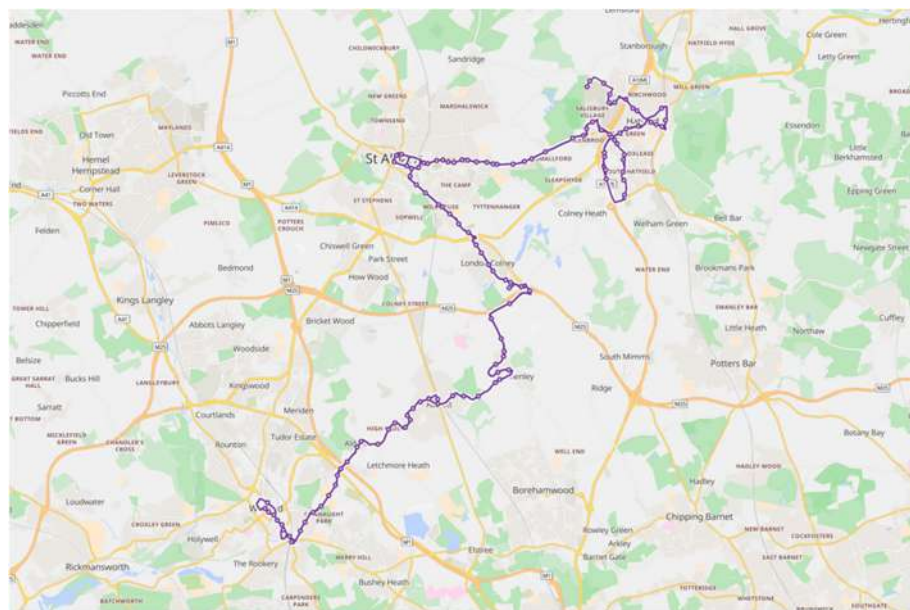

Figure 4: Bus Route 602 – Hatfield to Watford via St Albans, Radlett and Bushey

- 4.1.4 Route 601 provides services between Borehamwood and Welwyn Garden City between 0600 and 2000 Monday to Friday and 0900 and 1900 on Saturdays. There are no services on Sundays.

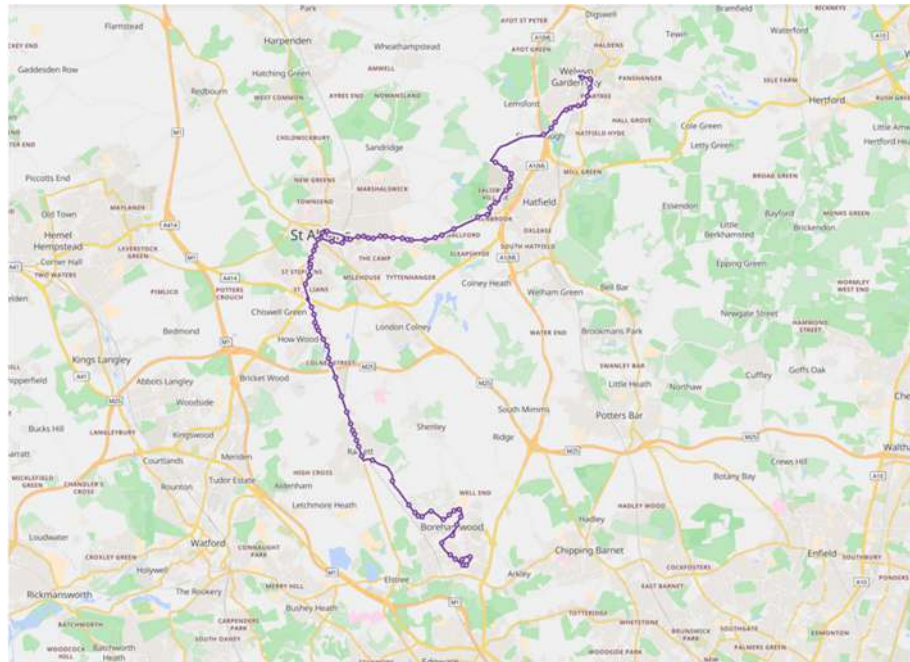

Figure 5: Borehamwood to Welwyn Garden City via Hatfield and St Albans

- 4.1.5 398 operates services between Watford and Potters Bar via Radlett and Borehamwood.
- 4.1.6 Maps and timetables of the bus services operating in Radlett are included at Appendix B. Further information, including bus maps, timetables, and apps for journey planning and accessing live information on departures can be found on the operators' websites.

4.2 Rail

- 4.2.1 The nearest rail station is Radlett, which is located approximately 800m to the east of the site. Radlett station offers Thameslink services to destinations in the direction of Luton and Bedford to the north, including Luton Airport Parkway, and London St Pancras International and other major destinations in the south such as Brighton. Peak frequencies can be as high nine trains per hour.
- 4.2.2 The current published timetable for services operating at Radlett station is included at Appendix B of this report.
- 4.2.3 The distance between the site and Radlett station is considered attractive for walking. The walking routes to the station are direct and comprises:
- 1) turning left from the site and walking along Watford Road, continuing onto Park Road and turning south onto Watling Road
 - 2) turning left from the site and walking along Watford Road, turning right at Watford Road/ Park Road junction, walking south along Watford Road and turning east onto Station Road.
- 4.2.4 The journey times along these routes are 8 minutes and 7 minutes respectively.
- 4.2.5 The station can be reached by cycling in 2 minutes. The cycle route to the station comprises, turning left from the site, travelling on Watford Road, continuing onto Park Road and turning south onto Watling Road at junction of Park Road and Watling Road.

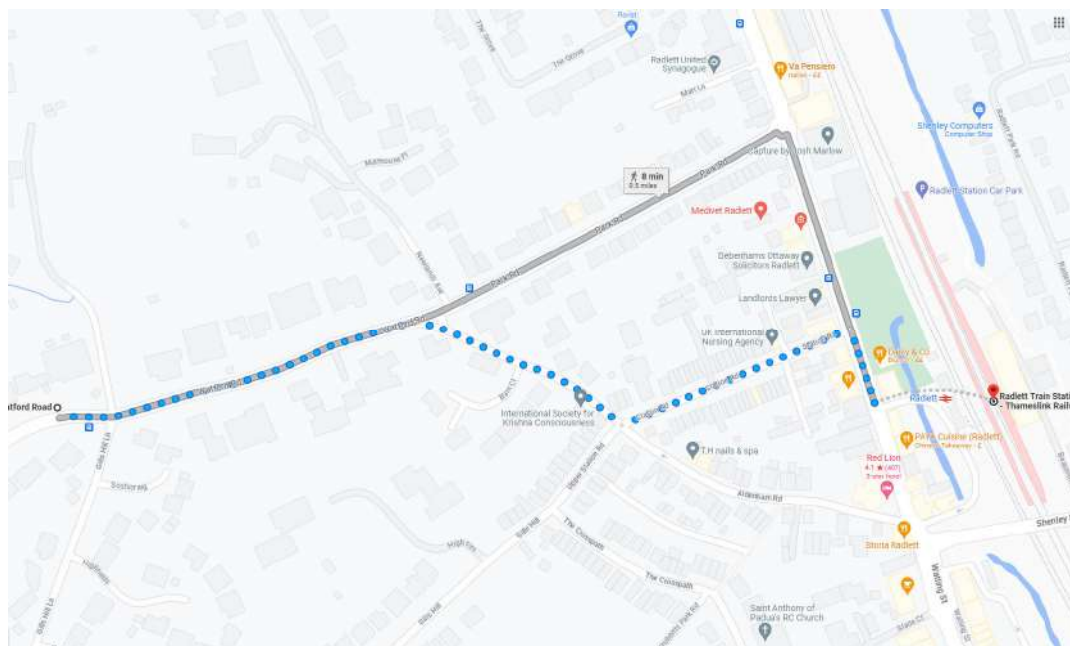

Figure 6: Walking Routes to Radlett Rail Station

4.3 Walking

4.3.1 There is a continuous network of footways in the local area. There is a footway on the southern side of Watford Road between the site and Gills Hill Lane, and footways on both sides of the road from this point to Park Road, junction with Watling Road. Watford Road and adjoining streets are well-lit and provide comfortable and safe local pedestrian routes.

4.4 Cycling

4.4.1 The local cycle network consists of a mixture of on and off-carriageway cycle routes. Watford Road is classed as a secondary cycle route, which indicates that conditions are suitable for cyclists despite the lack of dedicated cycle lanes.

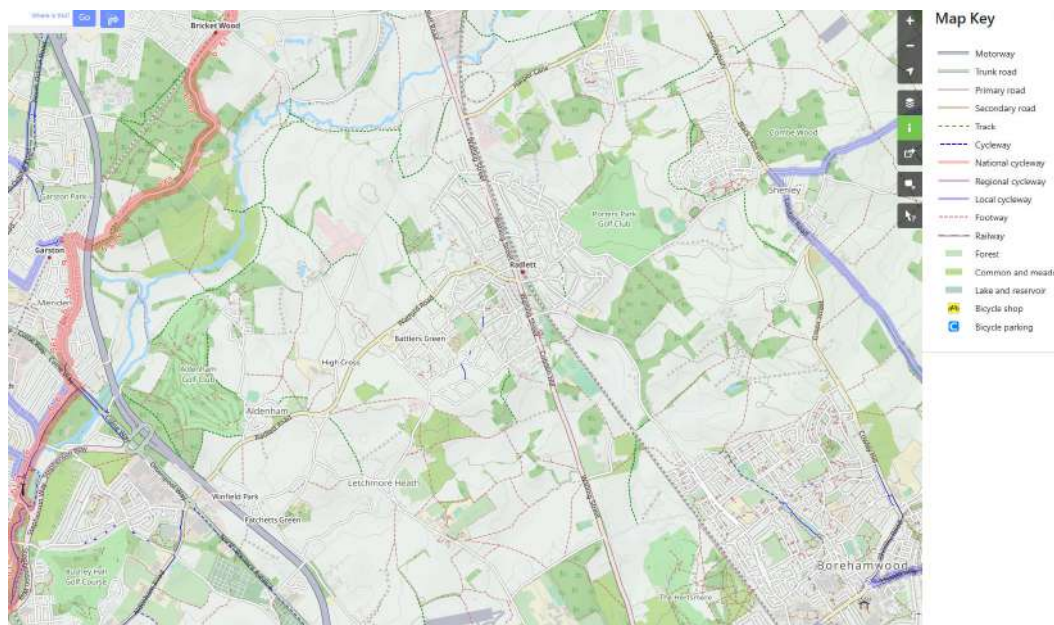

Figure 8: Cycle Network (source: Open Maps)

4.4.2 The above map indicates the existing cycle infrastructure in Radlett and beyond. Although the existing cycle network does not appear to be well defined, there are several off-street cycle routes/tracks in Radlett.

4.4.3 The character of Watford Road and many of the surrounding streets are residential in nature and therefore constitute safe and quiet streets which are suitable for cyclists.

5 Development Proposal

5.1.1 The proposed development comprises the demolition of the existing building and the erection of a new building to provide a development comprising 6x 3-bedroom flats, with landscaping, car parking and cycle parking.

5.2 Car Parking

5.2.1 A total of fourteen car parking spaces are provided. This provision consists of long-term parking of two disabled parking space and ten standard car parking spaces, and two visitor car parking spaces. The long-term car parking is provided at basement level and access is via a vehicular ramp. Two visitor's car parking spaces are provided in the courtyard, at ground level.

5.2.2 The layout of the car park, vehicular access arrangements, and vehicular access points are presented in the figures below and at Appendix A

5.2.3 It should be noted that all car parking spaces will be fitted with electric vehicle charging points (EVCPs) and would therefore amount to an EVCP provision at 100%. Should the council require details of the EVCPs, such as their outputs, the applicant would be prepared to agree to a planning condition, which requires approval of the details of EVCPs prior to operation of the development.

5.2.4 The level of car parking is compliant with the Hertsmere Parking Standards SPD 2014, which recommends a provision of two car parking spaces per 3-bedroom unit. The parking recommends in the SPD are based on car ownership data from Census 2011 and therefore the number of spaces provided is expected to meet the demand of the site and ensure that parking associated with the proposed development would not overspill onto the adjoining streets.

5.2.5 The proposed layout, width of the access road and car parking spaces are consistent with the recommended widths set out in Manual for Streets (2007). The access road includes a pedestrian zone/path which provides a safe route from the car park to the main building.

5.3 Cycle Parking

5.3.1 The development includes cycle parking for eighteen bicycles. These spaces are provided in a sheltered cycle store at basement level and will be accessed via the proposed vehicle ramp. Cycle parking is indicated on the basement below.

5.3.2 The cycle parking provision accords with Hertsmere Parking Standards SPD (3 spaces per residential unit). Details of the cycle store could be secured by condition, if required by the council.

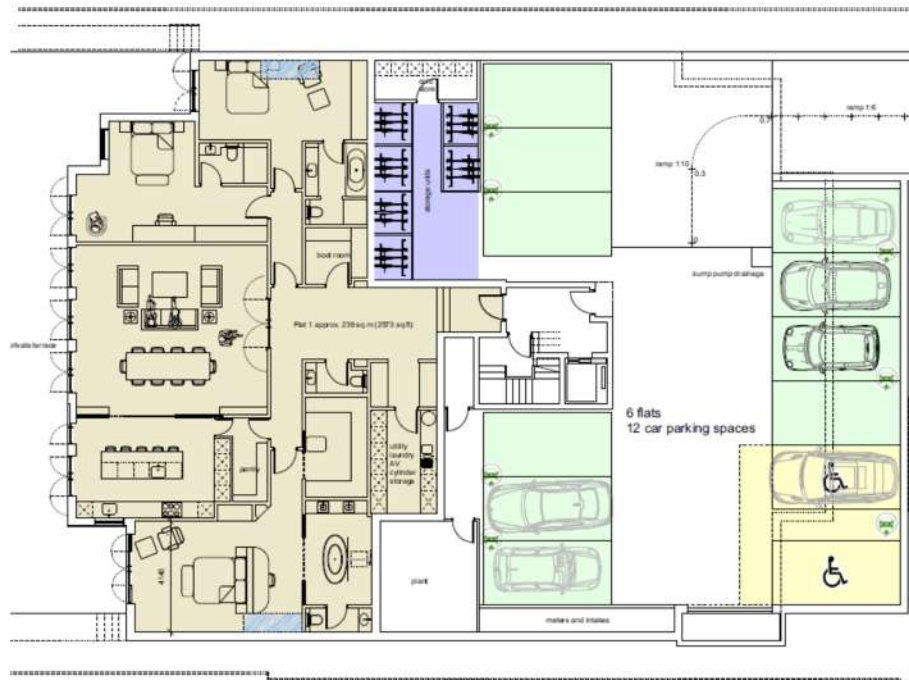

Figure 9: Layout of Car Park

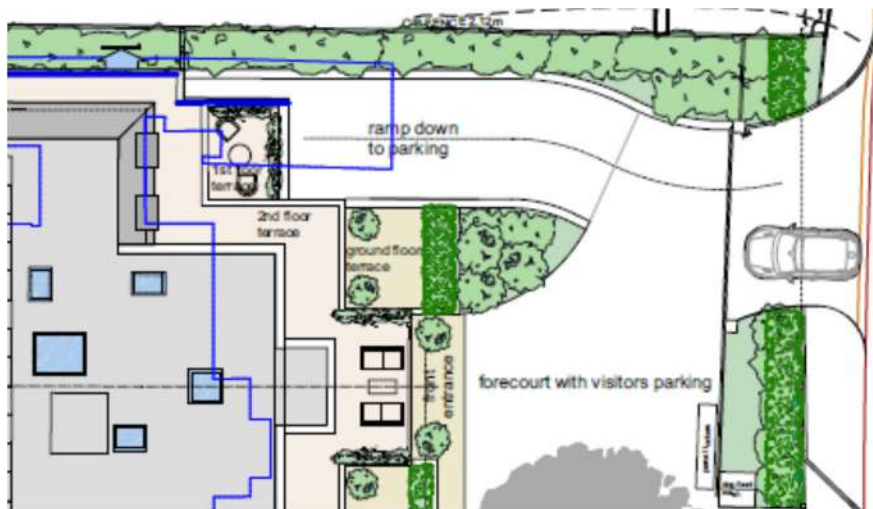

Figure 10: Vehicular Access

5.4 Access

- 5.4.1 Vehicular access is gained via one of the existing vehicular access points in Watford Road—the eastern access point. It is proposed that the existing vehicular access point on the western side of the site frontage will be removed and the existing ‘eastern access point’ will be retained and modified to improve access to the basement car parking and the forecourt, where two visitor parking spaces are provided.
- 5.4.2 The existing ‘eastern’ access point will be widened to 6.6m (as indicated below) to provide an adequate width, which will ensure that vehicles entering and leaving the site are able to do so without the need wait within the site or on Watford Road. The access has therefore been designed to minimise impacts on the operation of traffic in Watford Road.

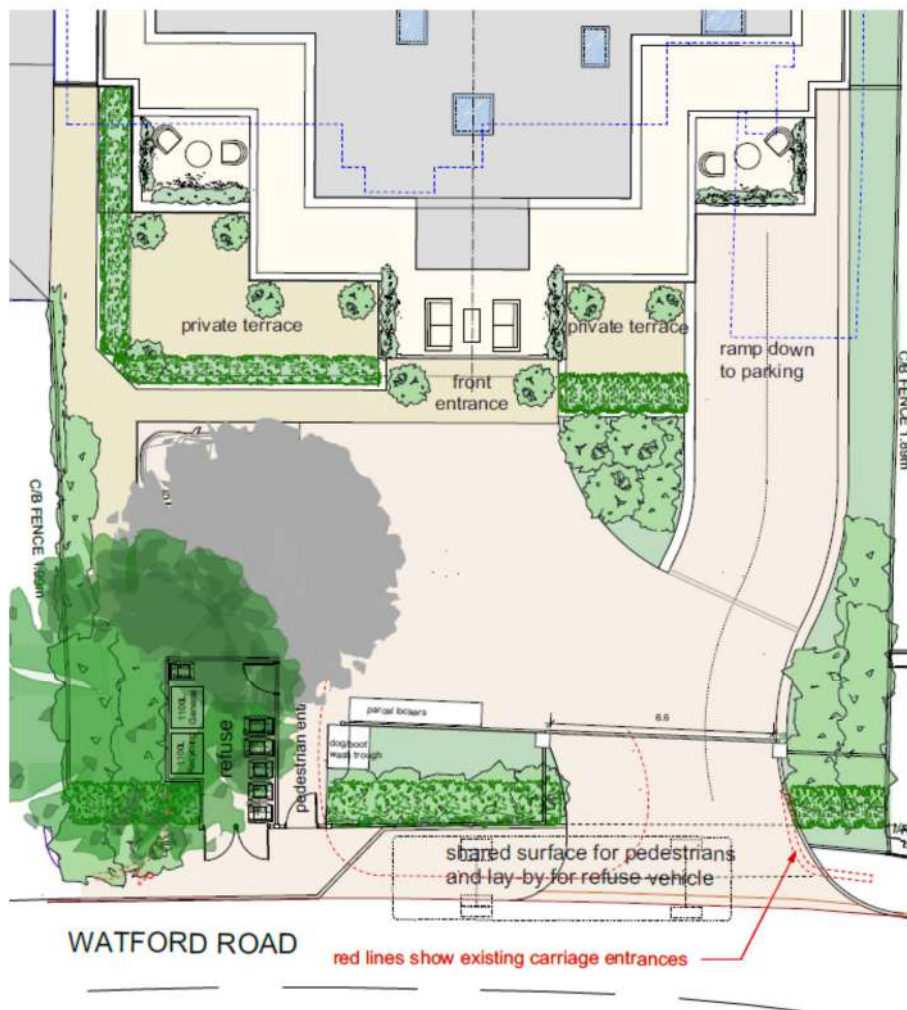

Figure 11: Vehicle, Cycle and Pedestrian Access

- 5.4.3 Access to the site will be controlled by a gate, ensuring that only authorised vehicles will be permitted to access the site. The entrance gate is setback to ensure that a vehicle entering the site is able pull completely off Watford Road while wait to access the site.
- 5.4.4 Pedestrians will access the courtyard via a separate gate, which is positioned on the western side of site frontage, thus minimising potential conflicts between vehicles and pedestrians.
- 5.4.5 Cyclists have the option of using the pedestrian gate on the western side or sharing the vehicular access on the eastern side. Based on a car parking provision of twelve spaces plus two visitors' spaces, vehicular movement in and out of the site is expected to be low and as such potential conflicts between cars and cyclists is a low risk.

5.5 Refuse

- 5.5.1 The refuse store is situated on Watford Road adjacent to the western boundary of the site. Refuse collection is accommodated at kerbside in layby front of the development. The number of refuse collections for a development of this scale is expected to be low—typically one or two collections per week. The proposed layby is shown on the above plan.

5.6 Deliveries

- 5.6.1 Delivery to the site will be accommodated in the proposed layby in front of the site in Watford Road. The provision of a layby/inset loading bay will ensure that vehicles can deliver to site without impeding traffic in Watford Road.

6 Trip Generation and Impacts

6.1 Trip Generation

- 6.1.1 The proposed development is significantly below the threshold for when a full transport assessment or a transport statement is required. A multimodal trip generation and impact analysis is therefore not required for the scale and nature of the proposed development. Nevertheless, some consideration has been given to the potential transport and highway impacts of the scheme.
- 6.1.2 Based on the number of car parking spaces of twelve, the worst case would be twelve departures by car in the morning peak period and twelve arrivals in the evening. This level of movement is unlikely as hybrid working post-COVID means that some residents are likely to work from home some days of the week and would suggest a lower number of vehicle movements.

6.2 Traffic Impacts

- 6.2.1 Based on the anticipated vehicle trip generation figures above, the vehicle trip generation will be insignificant and will not create any impacts of consequence on the surrounding road network. Additionally, any public transport demand is expected to be low and will not impact materially on the capacity of the public transport services.
- 6.2.2 The most recent DfT traffic count data available for the area shows the AADT for Watling Road close to its junction with Watford Road, to be 16,061. This would suggest that even if all vehicular movements from the development were to use Watling Road, this would account for a miniscule proportion of the overall traffic volumes.

6.3 Construction Traffic

- 6.3.1 Given the scale of the development proposal, it is not anticipated that a significant level of construction traffic movement will be generated and as such, no significant traffic impacts are envisioned during the construction phase. The access and site arrangements during construction will be given due consideration when a contractor has been appointed. A Construction Logistics Plan, setting out details such as the site construction plan, provision of loading/unloading, access, turning, number and size of construction vehicles expected to arrive/depart daily, particularly during the most intense period of construction, could be secured by planning condition – requiring submission of a CLP for approval prior to construction – if required by the Council.

6.4 Policy Compliance

- 6.4.1 The proposal is consistent with NPPF paragraph 111 which states that *“development should only be prevented or refused on highway grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe”*.
- 6.4.2 The generated demand from the development does not rise to a level which could be considered to result in ‘severe’ traffic impacts on the highway network.
- 6.4.3 The number of cycle and car parking spaces proposed is consistent with the Council’s Parking Standards (Hertsmere Parking Standards SPD, 2014).
- 6.4.4 The proposal is also consistent with policy in terms of the provision of electric vehicle infrastructure, which seeks to minimise the environmental impacts of the development. The design of the car park is considered to be consistent with Manual for Streets, in terms of access arrangements, dimensions of parking spaces and width of access road.
- 6.4.5 The retained eastern access will be modified to provide an improved access to the site and satisfies the minimum visibility requirements.

7 Conclusion

- 7.1.1 In summary, it is considered that the proposed development can be accommodated by the existing transport and highway network. The level of vehicle movements likely to be generated by the development will not rise to a level which creates harm to the surrounding road network.
- 7.1.2 It is therefore concluded that the development will have no material impacts on the network during its construction and operation. The development level of vehicle movement in the peak periods would be inconsequential in transport terms.
- 7.1.3 The level of car parking accords with the current Hertsmere Local Plan and draft Local Plan, and the Parking Standards SPD. As such, the development is compliant with local plan policy and standards.
- 7.1.4 The site a short distance from Radlett station, which can be accessed by walking for 8 minutes or cycling for 2 minutes. The local bus network provides good connections to destinations such as Watford, Borehamwood and St Albans. The site is therefore considered to have good accessibility to public transport. In determining the level of car parking, the public transport conditions have been given appropriate considerations, as well as car ownership (which serves as proxy for parking demand) and the parking conditions in the surrounding street. The level of car parking will ensure that demand from the demand will not spill over into the surrounding streets which currently suffers from a lack of parking capacity.
- 7.1.5 The proposed vehicle access point is considered acceptable, nevertheless the final details of vehicular access can be secured through a planning condition, or through a Section 278 agreement with the highway authority, if required by the Council.
- 7.1.6 Policy compliant cycle parking is provided at secure cycle store in the basement. Details of cycle parking can be secured by planning condition, if required by the local authority
- 7.1.7 Electric vehicle parking for residents are provided at 100%, which exceeds the recommended level set out in the draft Hertsmere Local Plan.
- 7.1.8 Overall, the proposal is compliant with objectives for sustainable transport and compliant with the council policies and parking standards. No material impacts on the public transport network and the road network will be created.

Key

EM Service operated by East Midlands Railway

TL Service operated by Thameslink

a Arrival time

c Arrives 3 minutes earlier

d Departure time

TSM Tuesday to Saturday mornings

7 Denotes the minimum time in minutes that should be allowed to change trains. At stations with no number, please allow at least 5 minutes

 Interchange with London Underground

 Interchange with Eurostar services

DLR Interchange with Docklands Light Railway

 Interchange with Tramlink

 Station with a frequent shuttle bus to London Luton Airport

 Station within Airport terminal

 First Class accommodation available

 A trolley service of drinks and snacks is available for all or part of the journey

A To Orpington

B To East Grinstead

C: Bedford, Luton and St Albans to London, Sutton, Medway Towns, Gatwick Airport and the South Coast

This table is valid from Saturday 17 December 2022 until Saturday 20 May 2023

Saturday 1 of 12

Key

- EM** Service operated by East Midlands Railway
- TL** Service operated by Thameslink
- a** Arrival time
- c** Arrives 3 minutes earlier
- d** Departure time
- 7** Denotes the minimum time in minutes that should be allowed to change trains. At stations with no number, please allow at least 5 minutes
- ↻ Interchange with London Underground
- ↻ Interchange with Eurostar services
- DLR** Interchange with Docklands Light Railway
- ↻ Interchange with Tramlink
- ✈ Station with a frequent shuttle bus to London Luton Airport
- ✈ Station within Airport terminal
- ☑ First Class accommodation available
- ☑ A trolley service of drinks and snacks is available for all or part of the journey

C: Bedford, Luton and St Albans to London, Sutton, Medway Towns, Gatwick Airport and the South Coast

This table is valid from Sunday 11 December 2022 until Sunday 14 May 2023

Sunday 1 of 9

Key

- EM** Service operated by East Midlands Railway
- TL** Service operated by Thameslink
- a** Arrival time
- c** Arrives 4 minutes earlier
- d** Departure time
- e** Arrives 3 minutes earlier
- MO** Mondays only
- MX** Not Mondays
- SM** Saturday mornings only
- TFM** Tuesday to Friday mornings only
- TSM** Tuesday to Saturday mornings
-  Denotes the minimum time in minutes that should be allowed to change trains. At stations with no number, please allow at least 5 minutes
-  Interchange with London Underground
-  Interchange with Eurostar services
- DLR** Interchange with Docklands Light Railway
-  Interchange with Tramlink
-  Station with a frequent shuttle bus to London Luton Airport
-  Station within Airport terminal
-  First Class accommodation available
-  A trolley service of drinks and snacks is available for all or part of the journey
- A** From Orpington
- B** From Horsham
- G** From East Grinstead

C: The South Coast, Gatwick Airport, Medway Towns, Sutton and London to St Albans, Luton and Bedford

This table is valid from Saturday 17 December 2022 until Saturday 20 May 2023

Key

- EM** Service operated by East Midlands Railway
- TL** Service operated by Thameslink
- a** Arrival time
- c** Arrives 3 minutes earlier
- d** Departure time
- Denotes the minimum time in minutes that should be allowed to change trains. At stations with no number, please allow at least 5 minutes
- Interchange with London Underground
- Interchange with Eurostar services
- DLR** Interchange with Docklands Light Railway
- Interchange with Tramlink
- Station with a frequent shuttle bus to London Luton Airport
- Station within Airport terminal
- First Class accommodation available
- A trolley service of drinks and snacks is available for all or part of the journey

Sunday 2 of 9

Key

- EM** Service operated by East Midlands Railway
- TL** Service operated by Thameslink
- a** Arrival time
- d** Departure time
- 10** Denotes the minimum time in minutes that should be allowed to change trains. At stations with no number, please allow at least 5 minutes
-  Interchange with London Underground
-  Interchange with Eurostar services
- DLR** Interchange with Docklands Light Railway
-  Interchange with Tramlink
-  Station with a frequent shuttle bus to London Luton Airport
-  Station within Airport terminal
-  First Class accommodation available
-  A trolley service of drinks and snacks is available for all or part of the journey
-  On-train refreshments are available for all or part of the journey

Radlett Station

Onward Travel Information

Buses and Taxis

Northbound Rail Replacement Buses towards St Albans and Luton depart from Watling Street stop C and Southbound Rail Replacement Buses towards London depart from Watling Street stop B.

Local area map

Radlett is a PlusBus area.

PlusBus is a discount price 'bus pass' that you buy with your train ticket. It gives you unlimited bus travel around your chosen town, on participating buses. Visit www.plusbus.info

Main destinations by bus

(Data correct at February 2022)

DESTINATION	BUS ROUTES	BUS STOP
● Aldenham	602	A
