Details of the pre-application advice received
Conclusion:  For the above reasons I cannot support the submission of an application for this proposal. I consider that the inaccessible location of the site, in open countryside would raise a conflict in principle with the housing delivery policies of the adopted development plan and would not be supported at the application stage. This advice  Page 4 7 December 2023
does not prevent you from testing it via an application but should hopefully help you make an informed decision as to the whether it would be worthwhile. If you did wish to submit an application further information as to the validation requirements can be found on the Council's website.  You should note that this letter does not constitute a formal decision by the Council (as local planning authority). It is only an officer's opinion given in good faith, and without prejudice to the formal consideration of any planning application. However, the advice note issues will be considered by the Council as a material consideration in the determination of future planning related applications, subject to the proviso that circumstances and information may change or come to light that could alter the position. It should be noted that the weight given to preapplication advice notes will decline over time and that the Local Planning Authority dispose of pre-application records after three years. Therefore, pre-application records that are more than three years old will not hold any weight in the subsequent determination of related planning applications.
Authority Employee/Member  With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply?
