Description of Proposal
Does the proposal consist of, or include, the carrying out of building or other operations?
<ul><li>✓ Yes</li><li>◯ No</li></ul>
If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)
As this design is a extension to the two existing houses. It is creating a new entrance connecting to existing buildings. As per the drawing A-DWG-CD-102- Site plan, the distance and proposed design location will not affect any road activities. The drawing A-DWG-CD- 101-Proposed extension ground floor plan, mentioned the exact dimension of the proposed area.
Does the proposal consist of, or include, a change of use of the land or building(s)?

Has the proposal been started?

Grounds for Application
Information about the existing use(s)
Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful
The existing buildings are deemed lawful primarily due to their current residential use. The existing structures have been utilized within the bounds of residential zoning regulations, adhering to legal requirements governing such land use.
Furthermore, the proposed alteration or extension of these buildings maintains alignment with existing lawful usage. The design is an extension that bridges the gap between two existing houses, effectively serving as a connecting element between them. This proposed

extension not only adheres to the lawful residential zoning regulations but also integrates seamlessly with the existing structures, enhancing

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

their functionality while preserving their legal status.

Information about the proposed use(s)

○ Temporary
Why do you consider that a Lawful Development Certificate should be granted for this proposal?
Since this design is small-scale, it won't interfere with any laws or regulations. This extension does not impact any surrounding elements; its sole function is to provide residence connectivity. Because of the listed building behind the property, a lawful development certificate is required; nevertheless, as long as the planned design is sufficiently spaced from the listed structure and only rises to the bottom floor, the listed building won't be harmed or hidden.
Site Visit
Can the site be seen from a public road, public footpath, bridleway or other public land?
⊙ Yes
○ No
If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
