

# access plus.

29 inch bikes are becoming a common place amongst cyclists, however with a large wheel base storage can be an issue. The Access Plus allows you to store larger bikes (29ers) with all your riding equipment and have room to spare! The Access Plus is a tough all-metal storage unit designed to give you the easiest possible access to your bikes and riding equipment via two large reinforced doors and a gas-lift reinforced lid.

Manufactured from heavy gauge galvanised steel, the Access Plus offers both security and reliability. This weatherproof shed is designed to hold up to 4x 29" bikes\* and features a full metal floor (can be bolted to the ground), a 3-point locking system (shrouded padlock system with internal steel deadbolts on the doors), and a hidden ventilation system allows air flow inside, designed to keep condensation to a minimum.

## key features

### ACCESS PLUS SECURITY

- Tough 3-point locking system
- Shrouded twin lock
- Integral full metal base with fixings for securing the unit to the ground
- Designed for own padlocks (recommend level 8 disc lock)
