

**Statement of Significance for Hawkesbury Cricket Club, Hawkesbury Upton,
South Gloucestershire GL9 1BB**

Project: 2 no. Storage Containers.

As detailed below the Hawkesbury Cricket Club has grown significantly over the years being a main hub for sporting and social events, being located in the centre of the village it is easily accessible for the village and visitors alike, match days are not only attended by players and their families but is well supported by the whole village, bringing the community together in a safe and social environment, negating the need for extra storage for kit and apparatus and kitchen servicing facilities to accommodate our expanding club.

The Hawkesbury Cricket Club Pavilion was erected 1999, over the years the club has grown and become the predominant cricket club in the area. This success has resulted in the club currently supporting three senior men's teams, two women's teams, we also accommodate disabled team matches. There is also a vibrant children/youth programme from cricket related fun at 5-9 years to full coaching and competitive matches at U11's to U17's for both boys & girls. Often involving up to 100 youngster and parents, from Hawkesbury and surrounding villages. Visiting clubs have also increased resulting in larger spectator numbers by many times.
