Dear Sir/Madam,

Town and Country Planning Act 1990

Proposal: Discharge of conditions 5 (lighting); 7 (surface water drainage); 13 (landscape & ecological management plan; and 14 (hard & soft landscape) of planning permission CCC/22/108/FUL

Application No: CCC/24/024/DCON
Location: Tillicoultry Quarries Ltd Coated Stone Plant, Queen Adelaide Way, Ely, Cambridgeshire, CB7 4UB,

I acknowledge receipt of your client's planning application, which was received on 15 March 2024 and confirmed as valid on 26 March 2024.

The statutory period for determination of the application started on 27 March 2024 and concludes on 21 May 2024.

If more information is needed to fully process the application, we will write to you again, before the determination date, to request your agreement to an extension of time, giving reasons for the request and a new estimated timescale for the decision. Examples of when extensions of time may be requested are: where additional information is required to process the application; where new information needs additional consultation; and, where the application will be reported to the Council's Planning Committee, which meets monthly. We will need to receive a response to any extension of time promptly, and in writing (by email).

If agreement is not reached, the application may be determined within the statutory time period, which could result in permission being refused using delegated powers on the grounds that insufficient information has been provided.

If by 21 May 2024 you have not been told that your fee cheque has been dishonoured or you have not agreed in writing to extend the period in which the decision may be given, the person who made the application could submit an appeal to the Planning Inspectorate under Section 195 of the Town and Country Planning Act 1990.

If you wish to discuss the likely time period for the determination of your client's application, please contact the case officer, Kathy Render, whose contact details are at the top of this letter.

Yours sincerely,
