Notes	Symbol	Meaning
Survey Station	STN	Survey Station
Spot Level	CL	Spot Level
Bank	Bank	Bank
Contours	Contour	Contours

**Grid & Datum**  
 Survey Grid: The survey grid has been established using GPS related to National Grid and oriented to grid north.

**Trees**  
 All trees shown and heights are approximate and species have been identified to the best of the Surveyor's knowledge. Where guaranteed tree species become important, the services of an Arborist should be employed.

**Height**  
 Height is shown as a circle with a cross (Height / Forest). Trees with less than the specified minimum size may have been omitted.

**Individual tree samples are shown in a separate layer named CANOPES, which for presentation purposes has been turned off.**

**Drainage**  
 Drainage marks covers data has been recorded for each individual manhole from the surface. Where information is required by accessing the manhole or linking to other manholes then a service line will be shown.
