Description of the Proposal

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning guidance on fire statements</u> or <u>access the fire statement template and guidance</u>.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

Description

Please describe details of the proposed development or works including any change of use

As part of the Green Recovery Scheme funded by OFGEM, SSEN (Scottish and Southern Electrical Networks) need to provide a new substation to facilitate 6 new EV chargers at the Rownhams westbound services area off the M27. A 33KV connection is required therefore the

need for the proposed substation. This substation will also ensure greater resilience and future proof the network going forward.

Freedom Group are managing the consents and design and build on behalf of SSEN (the client). The substation location was approved by way of a previous application reference PP-12188751- (decision notice approval in november 2023). Due to the cost of the earthwork removal (civils) we have revised the location slightly and in essence the proposed substation compound has moved to the left and is slightly smaller and more elongated and not as deep so avoids the need to carry out the amount of earthworks removal as previously proposed. The compound now covers a slightly smaller area of approx 980 sq.m. Mark staincliffe is the planning officer who has advised on this application and is aware of the previous application for which there were no objections.

Biodiversity and Geological Conservation		
Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?		
To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.		
a) Protected and priority species		
 ✓ Yes, on the development site ✓ Yes, on land adjacent to or near the proposed development ✓ No 		

b) Designated sites, important habitats or other biodiversity features
✓ Yes, on the development site✓ Yes, on land adjacent to or near the proposed development✓ No
c) Features of geological conservation importance
Yes, on the development siteYes, on land adjacent to or near the proposed developmentNo
Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
Biodiversity net gain
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the
biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?
○ Yes② No
Please add all the exemptions or transitional arrangements that apply and provide a reason why
Exemption: Planning applications submitted before commencement of biodiversity net gain (12 February 2024)
Reason for selecting exemption:
Mark Staincliffe advised to submit the application pre april 2nd to avoid biodiversity net gain planning changes - email attached
Note: Please read the help text for further information on the exemptions available and when they apply
