You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

CAYING STUMP TO BE REDUCED BY 40% PRESERVED AS A WILDLIFE HABITAT STUMP + PLANTING X3 NEW HORNBEAM

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see below for sketch plan requirements).

Please provide the following information:

- · Tree species
- The number used on the sketch plan; and
- · A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- · Reasons for the work; and where trees are being felled
- · Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - Whole crown reduction to 12m above ground level, to provide sufficient clearance to property.

Sketch plan requirements

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - mark and name surrounding roads
 - sketch in buildings, including adjoining properties
 - o add house numbers or names
- mark the position of the tree(s) to which you want to carry out work and identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - o marking all trees on the plan, but only numbering those to which you want to carry out work
 - o showing the approximate distance between the application tree(s) and buildings
 - $\circ\;$ adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Tree Ownership
Tree Ownership
Is the applicant the owner of the tree(s)?
○Yes
⊗ No
If No, please provide the address of the owner (if known and if different from the tree location)
