Good Morning

Thankyou for your email below, please see in red.

height reduce by 11m on 3 no. Sweet chestnut trees and 1 no. Oak tree (1)' **Yes, this is correct.**

For the validation of the application please confirm the sector of the Eucryptia Columnar tree that is affected by the proposed reduction of 1 no. stem by approx. 2-3m, for example 'south sector' or 'east sector'. **The dead section is on the North East side. So we are looking for that to be removed, and then the remaining sector South West to be reduce by approx 2-3 meters. leaving an overall height of 7-8 meters.**

Kind regards

Matt
