3 April 2014

Application of Lawful Use (for above property)

Dear Sirs

The application has been completed to the best of my ability, I have submitted on the basis that building work was completed (and we moved in) in December 2013, as supported by relevant evidence showing social media posts of move, last months of invoices from builders merchants, electricians invoices and certificates and the order for kitchen worktop which was the last significant item ordered and delivered.

During the build the builder and my husband agreed changes to the planned build, some of these were discussed with the planning case officer but I have no records. If you require further information please let me know.

Yours faithfully

Karen Henderson
