## PLANNING STATEMENT

This application seeks to change window positions of **both dwellings** from the original application (PA20/03591) which was approved on 02 Dec 2020.

The internal layout has been adjusted to suit the client's living arrangements and therefore effected the positions of windows which were approved.

Moreover, the dwellings has been flipped to the traditional design and included a large rear door into the garage and addition of four roof-lights.

No further changes have been made, other than the ones listed above. The size of the dwellings have not changed, nor has any other features.

Materials will still be in keeping with the approved design.
