18 March 2024

Dear Sir or Madam

### **APPLICATION FOR TREE WORK**

Details: **TPO 2/TPO/00337**

**Trees 1-7, which those trees growing in the gravelled area, to be removed to facilitate further expansion of the hospital. These trees have had honey fungus, historically. The owners are keen to plant other trees, of an appropriate size and approved species, elsewhere within the hospital grounds at Queen Elizabeth Hospital Gayton Road Queen Elizabeth Hospital Site King's Lynn Norfolk**

I have received a tree work application as detailed above but cannot process it until I receive some more information:

1. It appears on the map you are showing 8 Trees , However on the applications description you only mention 7 please amend accordingly.

Once this information is received your application will become valid and the application can be passed to the Tree Officer.

To enable me to deal with the additional information requested efficiently could you please ensure you quote the application number detailed at the top of this letter and mark it for the attention of Amy Davies

Yours faithfully

Executive Director  
Environment and Planning
