

This drawing and the building works depicted on the copyright plan shall not be reproduced or amended without the prior written consent of the copyright owner. No liability will be accepted for amendments to the drawing or plan. The contractor is to check and verify all building and site dimensions, levels and general level levels at construction points within work limits. The contractor is to comply in all respects with the current Building Regulations, Part N, and all other relevant regulations, standards and codes of practice. The drawing and plan are not intended to show details of foundation, ground conditions or ground contamination. Each area of ground related work to support any structure, deposit or ground conditions shall be investigated and reported on by a suitably qualified person. Any aspect of soil ground contamination or on which the ground should be further investigated by a suitable expert. Where existing levels are to be retained they should be subject to a fullotechnical inspection for stability, settlement and movement. A suitable method of foundation is to be provided to accommodate the proposed free parking. A suitable method of foundation is to be provided to accommodate the proposed free parking. A suitable method of foundation is to be provided to accommodate the proposed free parking. A suitable method of foundation is to be provided to accommodate the proposed free parking.
