**4 (a). Using the information obtained through research and on-site analysis provide a summary of the history of the site/building.**

Please add a summary history of the site/building including specifically the parts that will be impacted by the proposals – e.g. how the site/building was originally laid out, how it has evolved, phases of construction and/or change. **4 (b) What research have you undertaken to understand the significance of the heritage asset(s) affected?**

**Please tick the relevant boxes**

HER	<input checked="" type="checkbox"/>
The Keep (East Sussex Record Office)	<input type="checkbox"/>
Map regression (historic maps)	<input type="checkbox"/>
Local Planning Authority sources	<input type="checkbox"/>
Historic England sources	<input type="checkbox"/>
Museum or Library (please provide details)	<input type="checkbox"/>
Other (please state)	<input type="checkbox"/>

**(Please include / attach any research material as an addendum to this Statement after Appendix 1.)**

**5. What is important about the affected heritage asset(s) ('the significance')?** (See guidance section: <https://www.brighton-hove.gov.uk/content/planning/heritage/heritage-statements-what-important-about-affected-heritage-assets> )

Use this space to describe the significance of the heritage asset(s) including their setting (and any below ground archaeology) identified in Section 3. Please see the guidance notes on page 9 on what a heritage asset is and how to define significance.

**(Please continue on a separate sheet of paper if further space is required and attach / include as an addendum to this Statement after Appendix 1.)**

There are no designated heritage assets within the site. The site was previously excavated in the 1930s to facilitate the construction of the existing driveway, drainage, and detached garage. HER confirms no recorded below ground archaeological investigation.

**6. How will the proposals impact on the significance of the heritage asset(s) including their setting?** (See guidance section: <https://www.brighton-hove.gov.uk/content/planning/heritage/heritage-statements-how-will-proposals-impact-significance-heritage-assets> )

Please discuss what impact the proposals have on the heritage asset(s) i.e. loss or disturbance of historic building fabric, below or above ground archaeological impacts, setting or change of relationship between buildings and altering scale. **(Please continue on a separate sheet of paper if further**

**space is required and attach / include as an addendum to this Statement after Appendix 1.)**

The area has already undergone extensive post war residential development between 1930s and 1950s. It's unlikely that given the scale of the existing post war development that any finds will be made within the virgin soil onsite.

**7. How has the proposal been designed to conserve the significance of the heritage asset(s) including their setting?** (See guidance section: <https://www.brighton-hove.gov.uk/content/planning/heritage/heritage-statements-how-has-proposal-been-designed-serve-significance> )

Describe how the proposal has been designed to conserve and enhance the significance of the heritage assets (including below ground archaeology). Also describe how any harmful impacts have been avoided or minimised. For example, use of raft foundations, movement of the proposed extension to a less sensitive location.

**(Please continue on a separate sheet of paper if further space is required and attach / include as an addendum to this Statement after Appendix 1.)**

Please refer to The Design and Access Statement.

The foundations will be constructed in the form of 225mm raft and walls with no further excavation or foundation thickening (other than dealing with any soft strata chalk pockets).

## Guidance Notes

The **Heritage Statement** should identify all **heritage assets** potentially affected and their settings; describe their significance; and assess the potential impact of the proposal on that significance, including direct physical change and change to their setting.

**Heritage assets** include designated and non-designated assets, as well as both buildings and below ground archaeology.

The **National Planning Policy Framework (NPPF)** (Department for Communities and Local Government, July 2018) sets out the government's planning policies for England and how these are expected to be applied. The relevant section which relates to heritage is: **Section 189** which states that:

*In determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance. As a minimum the relevant historic environment record should have been consulted and the heritage assets assessed using appropriate expertise where necessary. Where a site on which development is proposed includes or has the potential to include heritage assets with archaeological interest, local planning authorities should require developers to submit an appropriate desk-based assessment and, where necessary, a field evaluation.*

For **further information** on assessment of significance and assessing the potential impact of a proposal on that significance, including setting, can be found in (or their future updates):

- CLG (2012) **National Planning Policy Framework (NPPF)** (especially paragraph 17, Section 12 and Annex 2 Glossary)
- CLG (2014) **Planning Policy Guidance (PPG)** (especially 18a, paragraph 001-063)
- Historic England (2015) **Good Practice Advice (GPA) note 2 Managing Significance in Decision Taking in the Historic Environment**
- Historic England (2015) **Good Practice Advice (GPA) note 3 The Setting of Heritage Assets**

The NPPF and PPG also include a Glossary and explanation of terms, such as 'heritage asset', 'setting' and 'significance':

**Heritage asset:** A building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest. Heritage asset includes designated heritage assets and assets identified by the local planning authority (including local listing).

**Setting of a heritage asset:** The surroundings in which a heritage asset is experienced. Its extent is not fixed and may change as the asset and its surroundings evolve. Elements of a setting may make a positive or negative contribution to the significance of an asset, may affect the ability to appreciate that significance or may be neutral.

**Significance (for heritage policy):** The value of a heritage asset to this and future generations because of its heritage interest. That interest may be archaeological, architectural, artistic or historic. Significance derives not only from a heritage asset's physical presence, but also from its setting. (NPPF Annex 2: Glossary)
