

**Ref: Picture sheet 1, pre existing pergola circa 1940 - 2020**

The previous pergola was further forward of the property directly in front.

Picture A: The previous pergola January 1955

There has been a pergola to the north of the Oaks since, we believe, the house was built and certainly since the early 1950s.

It was removed a few years ago although one of the pillars is still in place.

Picture B: Previous pergola circa 2018

**Ref: Picture sheet 2 Proposed pergola**

The new timber pergola with the original brick gate posts echoes the previous brick and timber pergola. The existing boundary fence is a picture of 4 foot and 6 foot panel fencing (belonging to the adjacent property).
