

Proposed Annex at Sunneyside Cottage

Violets Lane, Furneux Pelham

Proposal: The annex is designed and located to be used by the mother of the client. It provides the basic requirements for comfortable living, having a lounge bedroom and bathroom.

It provides a measure of independence whilst being close to the main house where meals will be provided.

It is ancillary accommodation to the main house,

The construction is compatible with the style of buildings in the area and is located to not affect the movement of cars etc.
