

- Existing Trees not to be altered
- Trees to be removed
- Proposed new trees

**Note:**  
It is proposed to remove a Scots Pine due to safety concerns near the new extension and overhanging properties during strong winds. Additionally, two trees will be removed to accommodate an updated driveway, ensuring better access for the residents.

**Disposal of Debris:** The debris and waste material generated during the tree removal process will be utilised for mulching or composting to support the implementation of the landscape design for the project. This sustainable approach ensures that the removed trees contribute to the environmental enhancement of the area.

Unidentified two trees proposed to be removed

Proposed Scots Pine to be removed

Rev	Tree	Location	DR	Change
1	Scots Pine	65 Spylaw Bank Rd	2024	Remove
2	Unidentified 01	65 Spylaw Bank Rd	2024	Remove
3	Unidentified 02	65 Spylaw Bank Rd	2024	Remove
