Subject: RE: -24/00168/FUL - 3 Rectory Row

Hello

Thank you for your recent email.

Unfortunately at the request of the Planning Team Manager I still need a further amendment and some additional information prior to the validation of your application.

Please provide existing and proposed alternate side elevations showing the extractor/flue.

Also please provide manufactures details/brochure for the extractor / flue together with information on the noise levels.

Thank you.

Regards

Sandra Chapman
Planning Technical Officer
