Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

Amendment to proposed levels

Please state why you wish to make this amendment

The original application was submitted without reference to the relationship between the proposed dwellings and the existing topography. An indicative street frontage elevation (drawing ref. 0308 PL-204) formed part of the approved drawing package but it does not reflect the actual site levels.

After investigation it has become apparent that to provide the dwellings at the heights indicated on the approved drawing, a significant reduction and increase of existing ground levels would be required. On the above mentioned approved street frontage drawing, house 1 is sited 700mm higher than house 2, whereas the ground is lower on the site for house 1 and higher on the site for ground 2.

Ideally the approved proposed house levels would be amended so that house 1 is at the lower level and house 2 at the higher level in order to correspond exactly with the existing topography. However, for simplicity we are proposing to reduce the level of the house 1 and raise the level of the house 2, making them the same height which would reduce the degree of disturbance of the existing site and in turn reduce the impact on biodiversity and natural eco systems.

Please note that the dimensions of the proposed buildings have not been amended.

For reference existing site levels have been indicated on attached drawing 23/402 LV01.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

Yes

No
