Following a career spanning over 25 years designing and specifying tiles, we started our online business in 2012.

SHEERA MULTICOLOUR NATURAL SLATE TILES

Description

Sheera multicolour natural slate tiles have a rustic riven finish which provides the perfect solution for high traffic areas of the home. The rustic surface is a popular flooring choice for kitchens, utilities, conservatories, and boot rooms. With its durable properties and characteristic rich earthy colours, Sheera natural slate has long been a favourite, lending itself to both modern and country properties.

Key Features

- Durable & hard-wearing
- Rustic country charm
- Premium quality
- Rustic riven surface
- Owing to the rustic nature of the natural stone surface, we don't recommend this tile for bare foot traffic
-

High colour variation is also an inherent part of the beauty of Sheera multicolour slate natural slate, so no tile will be the same. We advise sorting and laying out your tiles before fixing to ensure you get a good mix of shades across the area.
