## Biodiversity net gain Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so. Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required. Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? Yes ○ No Please provide the pre-development biodiversity value of onsite habitats on the date of calculation 0.87 Please provide the date the onsite pre-development biodiversity value was calculated 27/02/2024 Note: This should be either the date of the application, or an earlier proposed date If an earlier date, to the date of the planning application, has been used, please provide details why this date has been used Because it has to be carried out before you can submit a planning application, so by definition has to pre-date the planning application. Which version of the biodiversity metric was used? Statutory Biodiversity Metric When was the version of the biodiversity metric used published? 27/02/2024 Please provide the reference or supporting document/plan names for the: i.
