Applying policies S1 and S4 of the CLLP, the application site comprises infill development within the developed footprint of Potterhanworth which falls within the dwelling threshold as stipulated, therefore the development is accepted in principle. Although the host dwelling holds a strong roadside presence with extending amenity space, the subdivision is considered to relate to the character of the spacious plots retaining adequate separation and amenity for both dwellings. The proposed design reflects the local vernacular and reduces the massing presented within the context of the street scene through a formal principle elevation, pushing the architectural detailing to the rear.
Authority Employee/Member With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
