with the Network VEKA difference...

With a huge range of colours and woodgrain options, Network VEKA enables you to give your property the personality it deserves.

Choose from 18 finishes to make your home as unique as you are. You might go for frames in clean, fresh-looking White, traditional Black, subtle Grey or something a little more unusual. What about the much-coveted Chartwell Green?

In fact whatever colour you choose, you can rest assured your frames will be 'green'. All high quality PVC-U windows and doors from your local Network VEKA member are designed to be energy efficient, keeping your energy bills down and lowering your carbon footprint.

Due to the limitations of the printing process, we would recommend that a foil sample is viewed prior to final specification.

As a Network VEKA member, we can offer a range of 18 beautiful colours and realistic woodgrains for you to choose from.

PVC-U frames featuring our woodgrain effect finishes are virtually indistinguishable from traditional timber windows but, unlike wood, these low-maintenance options don't require tiresome sanding and painting.

At additional cost, it might even be possible to spray your frames a colour of your choice - so your home can be as individual as you are! You can even choose different colours for the inside and outside.

This means you can specify something striking for the exterior of the frames, but a more subtle colour for the inside, to match your interior decor.

Whatever colour you choose, you can rest assured that your new frames come with all the quality, energy-efficiency, guarantees and low maintenance benefits you would expect from your local Network VEKA member.

Why not choose white on the inside and a colour on the outside?
