

Climate Emergency Compliance Form for householder applications

Householder applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

It may be that not all of the requirements apply to your householder proposal, please look at each of the requirements and consider what can be achieved within your proposal. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance. This may be because your proposal is too small, or of a particular type, and that the requirement isn't applicable – this needs to be briefly explained in the appropriate column.

Completion of this form is a validation requirement and the local validations lists have been updated to include this.
