

## **006 Supporting Information**

### **Planning Application – Wayside, Cricket Hill Lane, GU46 6BB**

#### **Summary**

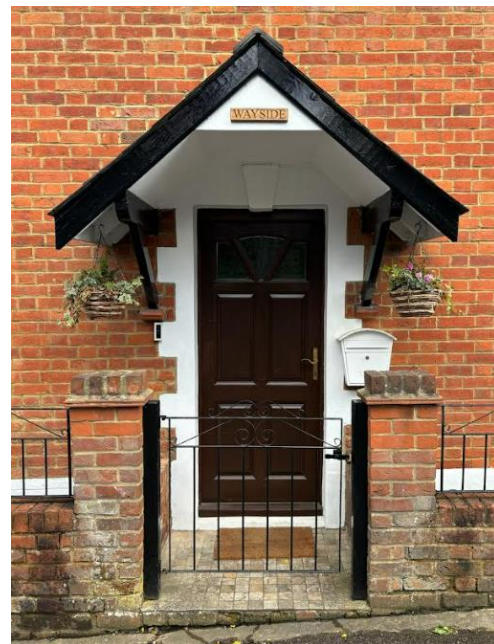

The subject property is located within the Cricket Hill Conservation area of Yateley. The proposed changes to the front door and garage door are in keeping with the area. The front door materials are a like-for-like timber, with a change in colour to black. The black is in keeping with the house considering the boundary features and black painted woodwork. The garage door is proposed to be aluminium and is considered an upgrade to the existing door, which is in poor repair. The proposed door will be of black wood effect, to be in keeping with the timber look and style of the existing door.

Along Cricket Hill Lane the principle of aluminium garage doors has been established. Examples include Moorside (white aluminium roller door) and Thatch cottage (white aluminium garage door)

#### **Existing Property – Photos**

*House: Front view*

*Existing Door: Dark Brown Timber*

*Existing Garage Door: Dark Brown Timber Door*

**Proposed Front Door and Garage – Images**

*A black, timber composite door with a diamond shaped glass window*

*A black, timber composite door with a diamond shaped glass window – no glass feature*
