

460 - VEREKER HOUSE

Application for a new parking space

Site Location - Vereker House
Pitcot Lane
Stratton on the Fosse
BA3 4SX

Description:

Vereker House has recently undergone renovation located on Pitcot Lane, a quiet highway approximately 1.5km south of Stratton on the Fosse.

The current area is a grassed verge to Pitcot Lane.

The application is for planning approval to form a safer, level access, parking bay to one side of the front entrance to Vereker House. This would provide easier access to the main residential floor level of the property for less mobile occupiers or visitors.

Drainage would remain unchanged, via existing soak-away to field to the south of the proposed parking bay, in the ownership of the applicant.

No trees would be affected by the proposed alterations.

The proposed lay-by style arrangement would allow front in access with no need to reverse onto or from the main highway.
