

## Sustainability Statement - minor applications

Sustainability standards	Yes	No		
A Net zero carbon				
I. Has the building fabric been designed to standards of ultra-low energy demand?	Υ			
2. Has the most comfort and the wight of events been accessed and passive	<u> </u>			
2. Has thermal comfort and the risk of overheating been assessed and passive design measures been prioritised?	Υ			
2 Is the development fossil fuel free?				
3. Is the development fossil fuel free?	Y			
4. Will a net zero operational carbon balance be achieved and 100% of energy		N		
consumption delivered using renewables?				
5. Will embodied carbon emissions be minimised?	Y			
B Travel				
1. Is home working supported?	Y			
2. Has active travel been prioritised?	Υ			
		1		
3. Is shared mobility facilitated?		N/A		
	<u> </u>			
4. Will electric vehicle charging infrastructure be provided?	N/A			
C Motor				
C Water				

Ι.	Will water consumption be minimised?	Υ	
		1	1
2.	Will water be conserved through rainwater harvesting or grey water recycling?		N/A
		I	I
3.	Has the flood risk assessment accounted for climate change and is sustainable drainage proposed?	Y	
	Waste		
Ι.	Will the construction company be registered with the Considerate Construction Scheme?		Ν
_			I
2.	Will a Site Waste Management Plan be followed and targets set for construction waste recycling and disposal?	Y	
3.	Will there be safe and convenient access to waste recycling?	Υ	
E	Voluntary sustainability standards		
١.	Will non-domestic development be BREEAM certified?		Ν
2.	Will the development receive a sustainability accreditation and/or follow recognised sustainability principles?		
F	Only for development affecting heritage assets or traditional buildings		
١.	Have the heritage value of the building(s) and impact on any heritage asset been appropriately assessed?		
2.	Is a whole building approach being taken?		
3.	Will responsible retrofit measures be adhered to?
