

Base information taken from MT Surveys drawings 1000-269_2D-(A1) & 1000-269_FP_E-(A1) following site surveys. The Contractor is required to undertake their own survey checking all building dimensions, ground levels, underground utilities and drainage locations prior to commencing on site before carrying out any works.

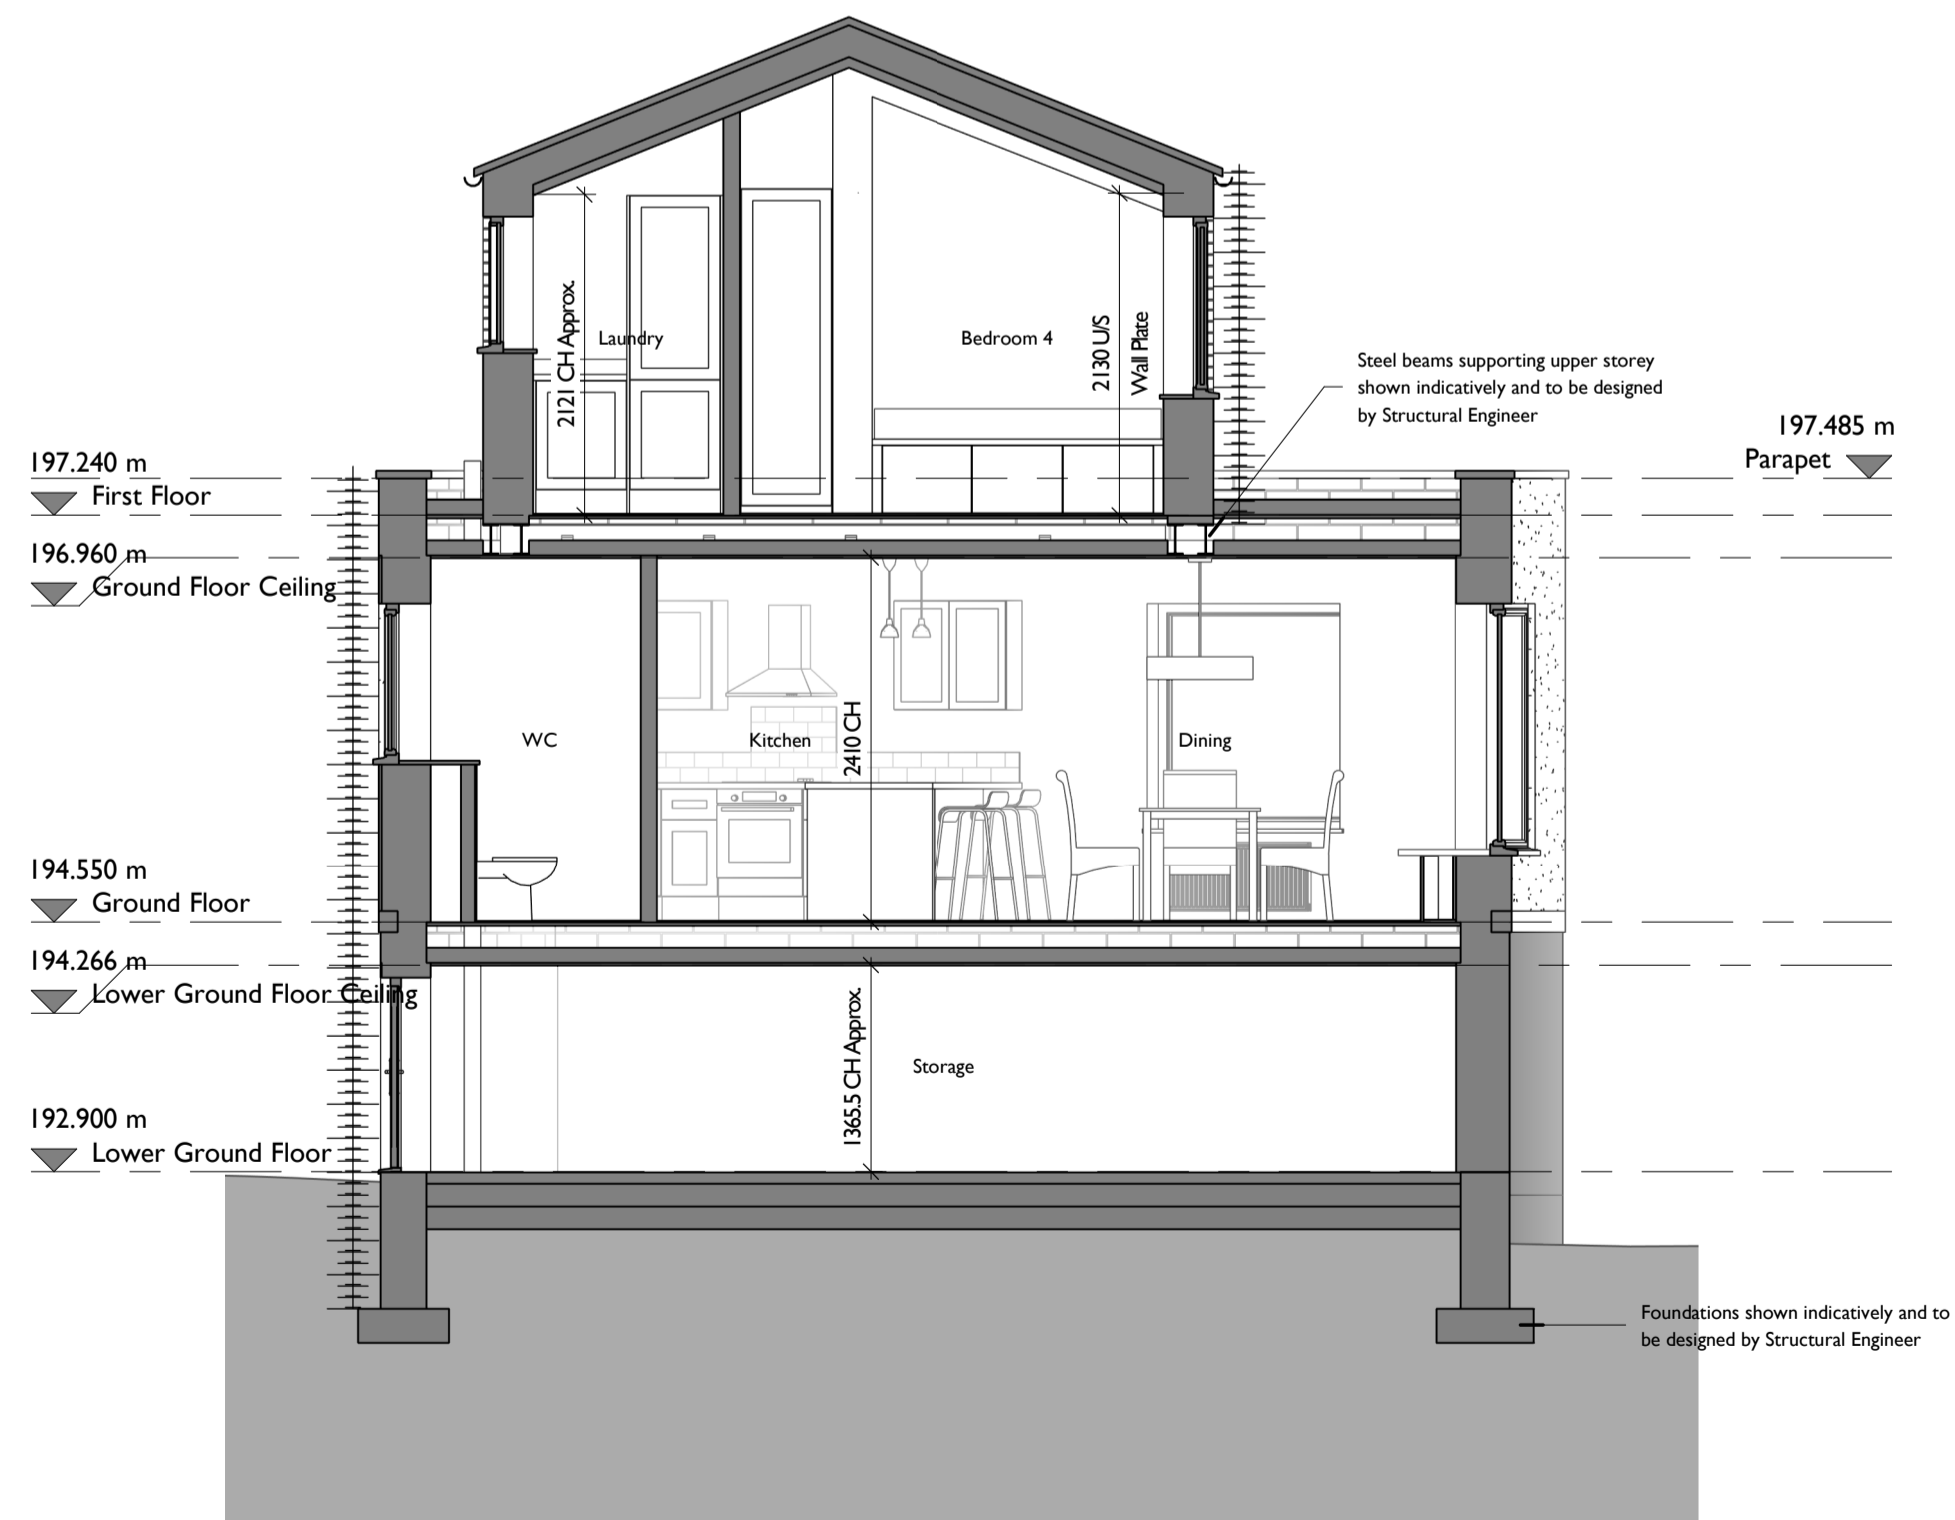

Planning Permission
The proposed extension is within two metres of a boundary and has an eaves height higher than three metres, therefore a Householder Application is required.

Building Regulations
The proposed extension requires approval under Building Regulations. The Contractor shall liaise with the Building Control Inspector to schedule inspections during key activities and installations so that a formal Building Control certificate is received on completion of the works.

Proposed Section AA

1 : 50

Proposed Section BB

1 : 50

revision	date	by	chk

All dimensions are in millimeters unless stated otherwise and require verifying on site by the contractor prior to commencing the works. Any conflicts or discrepancies should be brought to attention of the Designer. All work to be carried out to the latest British Standards.
