Details of the pre-application advice received

Part of email response:

Following the first comments of the Conservation Officer a drawing showing proposed levels of the garage in relation to nearby buildings was submitted. Based on the information provided, the Conservation Officer is satisfied with the scale of the garage in the context of the listed building as it appears to be subservient and a limited massing. Subject to the usual validation requirements on submission of an application. Further detailed, more extensive drawings including levels and cross-sections in relation to adjacent buildings and their garden levels will be required. A small Heritage Impact Assessment should cover any potential impact on setting and the character of the Conservation Area.

The garage should be constructed from appropriate materials which reflect the local context and surrounding buildings.

At this stage and based on the submitted details, the local authority does not offer definitive objections to the proposed development and the information suggested above should be submitted as part of a formal planning application in order that a further detailed assessment can be carried out .

## Authority Employee/Member

**With respect to the Authority, is the applicant and/or agent one of the following:**

**(a) a member of staff**

**(b) an elected member**

**(c) related to a member of staff**

**(d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

Yes

No
