Dear Sir / Madam

TOWN AND COUNTRY PLANNING ACT 1990
 PLANNING (LISTED BUILDINGS & CONSERVATION AREAS) ACT 1990

Address: Flats 96 To 116, Lauderdale Mansions, Lauderdale Road, London, W9 1NF,

Proposal: Erection of a single storey extension and conversion of the existing boiler house to the rear of 96-116 Lauderdale Mansions to create a one bedroom house and associated alterations.

Thank you for your application received on 22 February 2023. I am writing to inform you that your application is incomplete for the following reason(s):

- 1 Please provide a sustainable design statement.

INFORMATIVE

The statement should provide a proportionate level of information or commentary to demonstrate how the design has positively addressed the sustainable design principles set out in Policy 38D in the City Plan 2019-2040. This should include design implications arising from related policy in particular Policy 34B (urban greening), Policy 36 (Energy) and Policy 39 (Heritage). It should set out how consideration has been given to the energy hierarchy and cross reference other relevant documents including the BREEAM assessment, SuDs strategy, energy strategy, heritage statement and water calculations where provided and relevant. Any proposal involving demolition of a building should include a statement setting out why it is not possible to retain and improve the existing building in line with Policy 38, cross referencing the whole life cycle carbon analysis where required.

Where heritage assets are affected, this should cross reference the Heritage

Statement. If incorporated within the Design and Access Statement, it should be a distinct and clearly identified separate section.

More information and templates can be found on our website: <https://www.westminster.gov.uk/planning-building-and-environmental-regulations/planning-applications/advice-planning-application-supporting-documents/sustainable-design-statement>

- 2 As the site is located within a flood risk zone and/or is within a surface water flood risk hotspot; please provide a flood risk assessment identifying and assessing the risks of all forms of flooding to and from the development and demonstrating how these flood risks will be managed, taking climate change into account. The assessment should also identify opportunities to reduce the probability and consequences of flooding.

INFORMATIVE

For both residential extensions and non-residential extensions of less than 250 square metres in Flood Risk Zones 2 and 3, a simple flood risk assessment following the advice at the following link can be submitted: www.gov.uk/guidance/flood-risk-assessment-standing-advice#advice-for-minor-extensions.

The flood risk assessment should form part of an Environmental Statement when one is required.
