

# Specification

Perfectly designed for your needs.

#### **Solid sliding door.**

No zips, clips or thin rollable plastic.

#### **A breath of fresh air.**

Vents and retractable windows allow for adjustable airflow, without allowing water to penetrate the dome.

#### **Solid construction.**

Overlapping panels ensure zero water penetration, standing strong in rain, storms, and even snow.

#### **Dimensions.**

With a 9.5m<sup>2</sup> floor space GeoDomeX comfortably sits 8 people.

#### **Let the sun shine.**

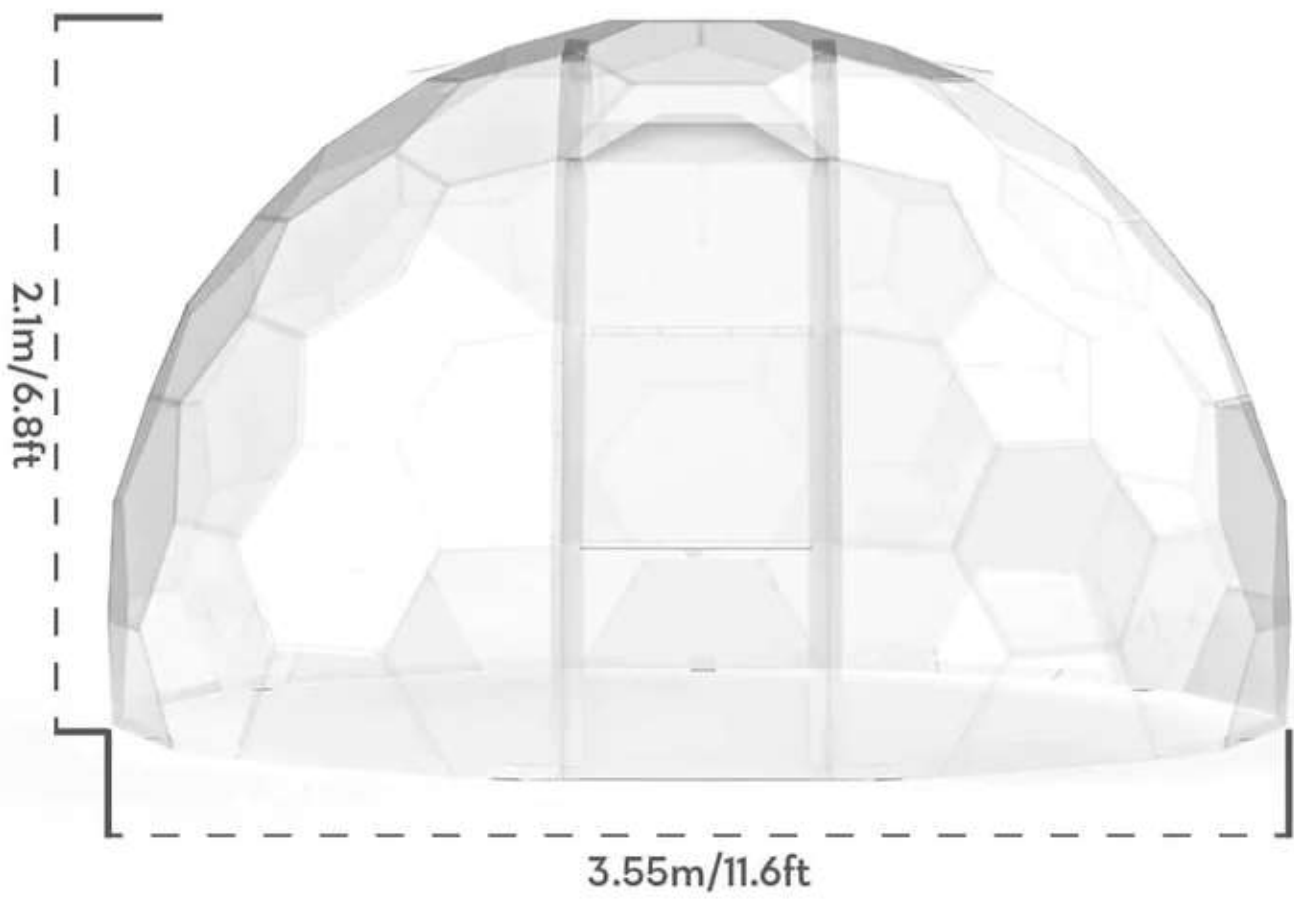

Each panel is coated with UV protection ensuring sun exposure doesn't cause degradation or yellowing.

#### **Strong anchoring points.**

Precisely engineered 'L' shaped brackets situated around the base mean GeoDomeX can withstand wind speeds of up to 100km/h.

#### **Long lasting.**

Made from fully recyclable polycarbonate, it has a 10+ year lifespan as well as a 5 year free replacement part warranty.

2.1m/6.8ft

3.55m/11.6ft
