

Transforming Living Spaces

DATASHEET FOR SUPALITE SKYVISTA SYSTEM

PRODUCT OVERVIEW:

The SupaLite SkyVista system combines a tiled roof system with glass panels, designed to enhance natural light while maintaining thermal control. With self-cleaning glass and a sleek design, it's suitable for various conservatory styles, including Edwardian, Victorian, and Lean-to.

KEY FEATURES:

- Combination of Tiled Roof & Glass Panels: Offers the best of both worlds with natural light and temperature control.
- Excellent U-Value Properties (0.15): Ensures energy efficiency, meeting UK Building Regulations.
- Effective Solar Control: Regulates the temperature of your conservatory.
- Self-Cleaning Glass: No need to climb up ladders for cleaning.
- Configurations: Available in Edwardian, Victorian, Lean-to styles, and two color options, blue and neutral.
- Improved Installation: Glass units can be lifted and dropped into place, saving time and reducing mess.

COMPLIANCE & REGULATIONS:

- Extension of a Dwelling: Meets standards for new and replacement elements (U-value & area limitations).
- Conservatories & Porches: Complies with thermal separation and minimum standards requirements.
- Material Change of Use: Suitable for existing, new, and replaced elements, adhering to specific U-value requirements.
- Compliance with UK Document L: Aligns with UK energy efficiency requirements as per the 2023 amendments.

APPLICATIONS:

- Residential Conservatories: Ideal for transforming conservatories into year-round living spaces.
- New Extensions: Suitable for new dwelling extensions, ensuring energy efficiency.
- Material Change of Use: Applicable for building conversions or significant alterations.
