

## **Biodiversity statement**

Site Address	Meridian Cottage, High Street, Damerham, Hampshire, SP6 3EU
List Description	Grade II listed although the conservatory is on the rear of the building which was built around 1970's
Proposed works	Replace the existing degrade conservatory roof with a black shingle tiled roof at same pitch and height
Biodiversity	<p>The existing white UPVC roof is not showing any signs of being a habitat for any of the local wildlife and the replacement of this roof with a new roof should have no impact to wildlife in the area</p> <p>Access to the site to carry out the works is proposed to be along a vehicle access to the rear of the property and parking in the existing allocated area. In order to minimise any damage to the site by delivery of materials, any delivery vehicles will remain on the main road to the front of the property and the materials will be hand unloaded to the back of the property ready for installation. All waste will be stored in a small area to the rear of the property and removed from site on completion of the works which should last for a period of around 7 days</p> <p>No other impact is foreseen on the surrounding area</p>
