

Climate Emergency Compliance Form for Householder Applications

Householder applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

It may be that not all of the requirements apply to your householder proposal, please look at each of the requirements and consider what can be achieved within your proposal. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance. This may be because your proposal is too small, or of a particular type, and that the requirement isn't applicable – this needs to be briefly explained in the appropriate column.

Completion of this form is a validation requirement and the local validations lists have been updated to include this.

Climate Emergency Compliance Form			
Requirement	Is the requirement being met onsite?	If 'in full or in part', which document/plan is the evidence included in;	If 'not of in part', please explain reason for non-compliance and identify any measures you are proposing to mitigate for the non-compliance
Mitigation			
M1 – Min 1kw of onsite renewable energy generation	<input type="checkbox"/> In Full <input type="checkbox"/> In Part <input checked="" type="checkbox"/> Not at all	(Panels shown on roof plan and elevations)	There is inadequate space for on site renewables.
M4 – Resilient and low carbon building materials	<input type="checkbox"/> In Full <input checked="" type="checkbox"/> In Part <input type="checkbox"/> Not at all	(Proof of slate origin and warranty period) Materials and labour will be sourced locally.	(May not apply if we aren't prescribing that natural slate needs to be used for conservation or heritage reasons.)

Climate Emergency Compliance Form			
M6 – Electric vehicle charging points	<input type="checkbox"/> In Full <input checked="" type="checkbox"/> In Part <input type="checkbox"/> Not at all	(Shown on plan if extension is adjacent to parking space. Should be shown as a minimum 7kw charger.) One EV charger will be installed adjacent one of the allocated parking spaces.	(Will not be applicable if the proposal isn't adjoining an existing off-road parking space)
Adaptation			
A1 – Passive solar design	N/A	Additional documentation not required whilst this measure is under review.	
A2 – Protecting our soil resource	<input type="checkbox"/> In Full <input checked="" type="checkbox"/> In Part <input type="checkbox"/> Not at all	(Supporting statement if applicable)	Works are to an existing building.
A3 – Protecting and enhancing tree cover	<input type="checkbox"/> In Full <input type="checkbox"/> In Part <input checked="" type="checkbox"/> Not at all	(Supporting statement if applicable)	Works are to an existing building.
A4 – Protecting and enhancing gardens, green spaces and greenfield sites	<input type="checkbox"/> In Full <input type="checkbox"/> In Part <input checked="" type="checkbox"/> Not at all	(Supporting statement if applicable)	Works are to an existing building.

Climate Emergency Compliance Form			
A5 – Delivering sustainable drainage, surface water management and restricting urban creep	<input type="checkbox"/> In Full <input type="checkbox"/> In Part <input checked="" type="checkbox"/> Not at all	(Supporting statement if applicable)	Works are to an existing building.
If an offsetting contribution is being proposed to mitigate the impacts of non-compliance, please refer to the most up-to-date Greater London Authority Carbon Offset Funds guidance
