The Porch House, Hill Row, Haddenham (Cambridgeshire Community Archive Network)

Heritage Statement

The Heritage Statement is for the applicant or agent to identify the heritage asset(s) and potential for other non-designated heritage assets on the proposed development site, describe their significance and the potential impact of the proposal on that significance.

Please read the Heritage Statement Guidance notes to help you fill in the form correctly as this will assist you to ensure that you include all the relevant information required. You do not need to use this template to produce a Heritage Statement but the information should include all of the elements outlined in the template and guidance note in order for it to be considered appropriately detailed.

The requirement to consult the local Historic Environment Record should be used to inform the content of the statement. The associated guidance document should be used to help guide the content and format of the statement. Supporting evidence including copies of entries from the HER record, list descriptions, etc should be attached as an appendix to this statement and should not form the crux of the document.

Note: Failure to fully complete all fields may result in the form not being validated by the Local Planning Authority. To be completed by the applicant – please tick relevant boxes

National Planning Policy Framework (NPPF)

The National Planning Policy Framework (Department for Communities and Local Government, March 2012) Section 128 states that: *In determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance. As a minimum the relevant historic environment record should have been consulted and the heritage assets assessed using appropriate expertise where necessary. Where a site on which development is proposed includes or has the potential to include heritage assets with archaeological interest, local planning authorities should require developers to submit an appropriate desk-based assessment and, where necessary, a field evaluation.*
